ACKNOWLEDGEMENT

I dedicate this study to God Almighty; ‘LORD GANESHA’, whose grace, unconditional love and blessings have accompanied me throughout the study; and provided me the immense inspiration, strength and courage to complete this thesis successfully. This effort in my academic endeavor would not have been a reality but for the constructive and purposeful support, guidance and encouragement rendered by a number of people, whose help I specially recognize through this acknowledgement.

The thirst of knowledge might be individualistic and personnel but it is that knowledge is truly humbling and my guide Dr. Prabha K Dasila, Professor & Director, MGM New Bombay College of Nursing, Kamothe, MGMIHS, Navi Mumbai, Maharashtra for her invaluable suggestions, patience, scholarly inputs, insightful comments and enthusiasm in conception, planning and execution of study. Madam has conceptualized the topic, guided from the beginning till the end for making this study possible. Beyond all, her immense knowledge and expertise in research has inspired the Investigator and taught that a brilliant work is just a lot of little things done well.

I express a deep sense of gratitude to my Co Guide Dr. Maneesha Vasant Kshirsagar, HOD OBGy Department, Talera Hospital, PCMC, Pune, for providing me her valuable suggestions and constant guidance throughout the data collection, especially to perform cervical screening for women those who were willing to participate in screening programme and to establish systematic treatment for women with Pap positive.

I am proud to acknowledge the scientific roots, Dr. Charuchandra Joshi, President, Pune Obst. Gynec. Society (POGS) and Dr. Gorakh G. Mandrupkar, Chairman, Medical Disorders in Pregnancy Committee, FOGSI, they have provided the noteworthy advice, suggestions and validating the content for educational interventions and scale for data collection. They are the part of this success story of this scientific drive. I am happy that I had privilege to work both of them.
I extend my gratitude to all the committee members of MGMIHS for their valuable suggestions and timely support from the inception till the completion and submission of the thesis. I am indebted to the Dr. Sharadha Ramesh, Director and all faculty members of Symbiosis College of Nursing, Symbiosis International (Deemed University) for the support and cooperation they extended, valuable suggestions they made & the encouragement they offered throughout the study.

I am grateful to the Authority of YCM hospital, PCMC to carry out the research in their institution & the co-operation they extended to make research successful. My sincere and whole hearted thanks for the suggestions & criticisms given by them.

My sincere and whole hearted thanks to Mr. Pradip Borle Bio-Statistician, Dr Setia & Dr Rita Abbi for their valuable guidance and support in the statistical analysis. I would like to extend my special appreciations to Ms. Archana Rathod, M.Phil English, for editing the thesis.

My special thanks to Dr. Gorakh Mandrupkar for translating the tool and content for three educational interventions from Marathi to English. I especially thank all the participants who actively joined in the conduct of this study & whose co-operation alone has made it possible for me to carry out the study successfully. I extend my sincere thanks to Dr. Prashant Dixit, Neonatal Intensivist for his constant support, motivation and encouragement for accomplishing this thesis efficaciously.

Last but not the least, I would like to thank my husband Mr. Ramesh Naidu and my daughter Deekshita Naidu for extending their constant love and cooperation throughout this study. I am justly blessed with such a delightful family and I hope to devote lots of worth time with them.

Mrs. Seeta Devi
