First and foremost, Special mention goes to my enthusiastic supervisor Dr. B.T. Prabhakar, Assistant Professor, Molecular Biomedicine Laboratory, PG Department of Biotechnology, Sahyadri Science College, Shivamogga for giving me the opportunity to carry out this research work under his guidance. It has been an honor to be his first PhD student. He has taught me, both consciously and un-consciously, how good experimental molecular biology is done. I appreciate all his contributions of time, ideas, and funding to make my PhD experience productive and inspiring. The joy and enthusiasm he has for his research was catching and motivational for me, even during tough times in the PhD research. Just this credit is not sufficient for his personal care, support, encouragement and productive criticism throughout my research work.

It is also my privilege to express my gratitude to my research co-supervisor Dr. Riaz Mahmood, Professor, PG Department of studies and Research in Biotechnology and Bioinformatics, Kuvempu University for his precious guidance, dedicated encouragements which helped me to complete my research work.

I present my heartfelt thankfulness to the University Grants Commission (UGC), New Delhi for providing junior research fellowship (JRF) under research project sanctioned to Dr. B.T. Prabhakar. I express my genuine gratitude to Lady Tata Memorial Trust (LTMT), Mumbai for offering JRF- SRF scholarships and financial support to carry out this research.

I would like to express the deepest thanks to our research collaborator Dr. Shaukat Ara Khanum, Associate Professor, Yuvaraja’s College (A), University of Mysore, Mysuru who has helped in the design of synthetic cytotoxic library and provided me active molecules to carry out this research.
Without her guidance and persistent help this thesis dissertation would have not been possible.

I very greatly remember my family members for their love, care, support and essential logistical help, especially my lovely parents Sri. C. Thirusangu and Smt. T. Podhumpon for their care, co-operation and patience during my research. I express my deepest appreciation to my beloved brother Mr. T. Murugan who is giving me solid endless support from beginning of my life. It is my esteemed duty to reserve my high indebtedness to Smt. Sumathi Kathiresan, Smt. Reathi Murugan, Mr. A. Sowndar, Smt. Nandini Vallaen, Smt. Thilaga Sathishkumar for their valuable encouragement and support throughout my career. Also I would like to express my indebtedness to our Elam Thalir (kids) M. Murean Krithic, K. Abirani, K. Prathiba, V. Charan Raj, K. Nithilan and V. Yalini who made me happier and more happier during my vacation visits and my research.

I would like to reserve my high regards to my friend V. Vigneshwaran who translated my time into achievements. Expressing thanks is not enough for his friendship, constant love, care and encouragements. I owe a debt of gratitude to all the family members of Vigny, Sri. R. Vellingiri, Smt. V. Vasantha and V. Keerthana for their love, care and valuable support.

I extend my sincere thanks to Smt. G. Shakunthala, Principal, Sahyadri Science College (A), Kuvempu University for the constant support and co-operation.

I owe my debt of thanks to Dr. V. Krishna, Professor, Department of Biotechnology and Bioinformatics, Kuvempu University for his co-operation during the period of research. I extend my sincere appreciation to Dr. C.K. Ramesh, Associate Professor, Department of Biotechnology, Sahyadri Science College, Shivamogga for his valuable suggestions and support during the period of research.
The road to my Ph.D started with M.Sc – major research project work at Department of Biotechnology, Teresian College, Mysuru. I take this opportunity to express my sincere gratitude to Dr. J. Shankar, who always directed me in right path during my research career and for providing very good training on basic research. Also, I owe my sincere thanks to Dr. S.N. Pramod, Assistant Professor, Sahyadri Science College, Shivamogga for his constant encouragements during my PhD research. I must express my sincere thanks to my teachers from Teresian College Dr. Vinay B. Raghavendra and Dr. M. Shylaja for their support and encouragements. I extend my thankfulness to Dr. K. Jayashree, JSS University for her support and encouragements during my research.

I thank The Principal, SJM College of Pharmacy, Chitradurga and The Principal, National College of Pharmacy, Shivamogga and Dr. Latha, Associate Professor, Sahyadri Science College, Shivamogga for their technical help and suggestions to carry out animal experiments.

I would like to render my deep appreciation to my friends Dr. B.R. Vijay Avin, University of Illinois, Chicago and Dr. S.R. Santhosh Kumar, PG Dept. of Biotechnology, Kuvempu University, Mr. K.S. Balaji, Department of Biotechnology, Teresian College, Mysuru who were always there in the time of need and helped me in various ways throughout the course of my research work.

I also extend my thanks to Dr. V. Lakshmi Ranganatha, Dr. T. Prahanth, Dr. M. Al-Ghorbani, Dr. H.D. Gurupadaswamy, Mr. Zabiulla and Mr. Mohamed Yasser, researchers at Department of Chemistry, Yuvaraja’s College, Mysuru who were helped me in the design of cytotoxic molecules and supported me in various ways throughout my research career.

I would like to convey my special thankfulness to my beloved colleagues Mr. H.M. Vikas, Mr. H. Rakesh, Mr. H.G. Shamanth,
Mr. G.S. Pavan Kumar, Miss K.S. Jamuna, Smt. M. Pallavi, Smt. Sameera Pavan, Miss G.H. Asharani, Mrs. P. Prabha, Miss T.G. Anupama, Miss M.D. Swathi and Mrs. Banumathi for their co-operation and support during the period of my research and all the fun we had in and outside the lab and during the course of research.

It gives me immense pleasure to mention gratefulness to Sri. H.B. Veerabhadra, Smt. V. Vijaya, Mr. Pavan Kumar and Mr. V. Puneeth who offered the residence with the peak of freedom and showed the great love, care and productive support during our stay in Shivamogga, Karnataka.

I would like to thank all the non teaching staff of Department of Biotechnology, Sahyadri Science College (A) and Department of Biotechnology and Bioinformatics, Kuvempu University, particularly Mr. Manikandan, Miss Rekamma, Mrs. Renuka, Mr. Basavaraj, Mr. Kantraju, and Mr. Manjunath, for their help and support.

I mention with heavy heart that the success of the project is because of innocent sacrificed animals. It will be really unfair if I don't mention about them. Finally, I thank God for giving me this wonderful life and incredible world.

Once Again I Thank You All...!!!

Mr. Prabhu T. March, 2017
