Words often fail in expressing my love towards my beloved father, C. V. Jacob and my late mother, Ms. Josephine Jacob. You stood as the dragging force behind my achievements. I hope I am fortunate in fulfilling your dreams and on the outset; I express my sincere gratitude and love towards you. And I bow my head before your pains and efforts in bringing me up. Your bountiful blessings and prayers give me the strength to live with. Many thanks to my brother, Mr. Jeeson C Jacob, for his love and concern during my life in CUSAT. During those days he was more or less a strong supporter. My beloved sister, often confused as my twin, well managed to play the role of my mother. I am indebted to her affection, friendship, advices, support and timely criticism. Mere words of gratitude are inadequate to thank her for creating a peaceful atmosphere in writing the thesis, amidst carrying Appu in her womb. Thanks for sheltering me throughout my life. My Brother in law, Mr. Jenu Kuriakose, often replaced my brother in many situations. Many thanks for all your supports and encouragements. It will be an ‘offense’ if I miss my sweet little ones, Anna and Appu…

The latest entry to this venture, my beloved husband, Dr. Robins Mathew Kanate, was a patient companion. Though he was new to this field, he stood first in motivating and inspiring me. His undaunted support and encouragement helped me move faster. Thanks a lot for all your affection, care, adjustments, patience and timely helps. I am indebted to my in-laws, Pappa, Mummy, Remiji and Shinu for their constant support and prayers.
Once again I thank all those who helped me in one way or other in the successful completion of this endeavour.

Lastly, I bow my head before my lord Jesus, for this wonderful life. Thank You for the strength you gave me each day and for all the people around me who make my life meaningful. Thank you Lord for blessing me much more than I deserve...
