JOURNALS

Dal Pupo J, Gheller RG, Dias JA, Rodacki AL, Moro AR and Santos SG. (2014). Reliability and validity of the 30-s continuous jump test for anaerobic fitness

Fatouros, IG, Jamurtas, AZ, Leontsini, D, Taxildaris, K, Aggelousis, N, Kostopoulos, 
training, and their combination on vertical jump performance and leg strength. 

Harrison AJ and Bourke G. (2009). Effect of resisted sprint training on speed and 
strength performance in male rugby players. *Journal of Strength and 
Conditioning Research*, Jan; Volume: 23, Issue:1 pp:275-283. doi: 
10.1519/JSC.0b013e318196b81f..

Haugen T, Tonnessen E, Leirstein S, Hem E and Seiler S. (2014). Not quite so fast: 
effect of training at 90% sprint speed on maximal and repeated-sprint ability in 

the warm-up of elite sport athletes with a high capacity for explosive force 
development. *Journal of Strength and Conditioning Research*, May; Vol – 

quickness training method on power performance in elite soccer players. 
*Journal of Strength and Conditioning Research / National Strength& 
10.1519/JSC.0b013e3181d67c65.

Kotzamanidis C, Chatzopoulos D, Michailidis C, Papaiakovou G and Patikas D. 
(2005). Effect of a combined high-intensity strength and speed training program

Markovic S, Mirkov DM, Knezevic OM and Jaric S. (2013). Jump training with different loads: effects on jumping performance and power output. *European*

Plyometric long jump training with progressive loading improves kinetic and 
kinematic swimming start parameters. *Journal of Strength and Conditioning 
Research*, Feb 12. [Epub ahead of print]

metabolism in females using oral contraceptives. *Journal of Sports Sciences*, 

Effects of Plyometric and Sprint Training on Physical and Technical Skill 
Performance in Adolescent Soccer Players. *Journal of Strength and 
10.1519/JSC.0000000000000838.

The effect of combined resisted agility and repeated sprint training vs. strength training on 
female elite soccer players. *Journal of Strength and Conditioning Research*, 

Sheppard JM, Dingley AA, Janssen I, Spratford W, Chapman DW and Newton RU. 
(2011). The effect of assisted jumping on vertical jump height in high-
performance volleyball players. *Journal of Science and Medicine in Sport/ Sports 
Medicine Australia*, Jan; Vol – 14(1), pp: 85-89. doi: 

Speed, Agility, and Quickness Training for Performance Enhancement. Retrieved from
