Acknowledgements

An appreciation needs to be valued, but we hardly get a chance to do it. So I would like to grab this opportunity to express my gratitude to all those people who have been with me and contributed in their own way to make this five year long journey, cheerful and memorable.

As I have reached the end of this journey, I have realized that my Ph.D. was like a road where I could only see the horizon. In my attempts to find something at the end, I have been able to explore new insights and tease apart the blocks that came in my way. I am glad that it has been a worthwhile expedition.

First and foremost, I would like to express my sincere gratitude to my Ph.D. mentor, Dr. Jomon Joseph, for providing me with the great opportunity to work in his lab. I want to thank him for his immense patience, encouraging discussions, motivational attitude, never ending ideas, brilliant scientific thinking and timely advice which helped me throughout the journey of my Ph.D. Sir, thank you for having faith in my abilities and encouraging me to try harder to take up challenging projects. You have always inspired me to be an independent researcher and take up a career in science. You were very generous in providing all the resources whenever required. I am thankful to you for carefully reading my thesis and your constructive comments. This thesis work certainly wasn't possible without you. I am also thankful to Rekha Ma'am for being so kind and loving. Shreya and Shruti, I will always cherish the moments we spent together.

I am grateful to Padmashree Dr. G.C Mishra (former Director, NCCS) and Dr. Shekhar C. Mande (Director, NCCS) for providing me the opportunity to work in NCCS. I thank them for their contributions for making NCCS an esteemed institute of its kind.

I would like to take this opportunity to thank Dr. Vasudevan Seshadri for his endless support, sharing reagents, instruments and technical expertise. Our JC interactions always reminded me of Bjorn Johson's Quote: “Don’t get too excited when things go well and don’t get too upset when they don’t”. I find myself extremely lucky having shared my data with you and your lab members and learning the art of discussion in a right manner. I take this opportunity to thank Supriya ma’am for her ever smiling face. I enjoyed your company during all get-togethers.

I express my sincere thanks to Dr. Arvind Sahu for sharing the lab space, instruments and reagents with us. Sir, you are a person who speaks few words but they are enough to create an impact on the listener. I would also like to express my gratitude to always smiling and cheerful Dr. Jayati Mullick. I thank you for your love, affection, and your inspiring words during difficult times “karo karo, fir se try karo, ho jayega” and “badhate raho”. I am going to miss our small talks and Dusshera pooja.

I extend my thanks to Dr. Ramanamurthy, Dr. Bankar, Mr. Shelke, Mr. Thorat, Mr. Sheikh and all lab attendants of animal facility of NCCS for their help in
immunization and maintenance of rabbits which we used for antibody generation. My sincere thanks to people behind the curtain - the Academic staff, Accounts department (specially Madhavi Ma’am), Purchase department, Washing section, media section, civil section, computer section, library, Instrumentation and maintenance section.

I am thankful to Dr. M.S. Madhusudhan, Dr. Gayathri Pananghat and Mr. Yogendra Ramtirtha from IISER (Pune), to help me out with the modeling studies. It gave a different and interesting direction to the study.

I am thankful to Council of Scientific and Industrial Research (CSIR), India for providing me the financial support throughout my Ph.D. work. I would also like to thank Department of Biotechnology (DBT) for their financial support. Additionally, I am thankful to Savitribai Phule Pune University for the academic formalities of my degree.

Lab environment plays a crucial role while pursuing the challenging task of Ph.D. Lab 9 has always been conducive. I am so thankful to all the members of Dr. Joseph group – past and present. I would like to specially thank Prayag for inspiring me. I would like to thank Mukesh, Pankhuri, Pabitra and Pravin for mentoring me in my initial days of Ph.D. Pabitra (Puncta Baba) you have been an excellent teacher and a friend. You have taught me a good time management skill. Manas, thanks for teaching Luciferase assay and RNA work. Maitreyi (my tea and pancake partner), thanks for helping me with my Ph.D. work. Thanks Helen for your motivational talks. Thanks Aditi and Deepak for maintaining supportive and musical lab environment. Thanks Santosh for being a good batch mate-cum-lab mate. I thank Inder for being there for me. I would like to thanks Prachi (my only sweet and innocent junior) who has always been very supportive. Poulomi, Jyoti and Sakalya thanks for maintaining a cheerful environment in lab. You guys have really made a lively atmosphere in the lab. I would like to thanks IAS fellows and lab trainees- Supriya, Parijat, Salik, Laxmi and Geetanjali. Aparna ma’am thanks for maintaining a disciplined lab environment. I will miss all our chit chats and your hand-made delicacies.

And special thanks to my extended lab members from Dr. Sahu’s group - Vivek, Kalyani, Muzamil, Malik, Avneesh, Ajit, Jeetendra, Ashish, Hemendra, Hina, Rajeshree, Arya, Renuka, Palak and last but not the least Late. Yogesh Panse for maintaining awesome lab raptor. Yogesh ji you were a great soul and a great human being. Your presence and cheerful nature will always be missed. Thanks for your constant support for anything in the lab. Your words of encouragements are missed. And a warm thanks to all the members of Dr. Vasu’s group- Amresh, Shardul, Arya, Poonam, Abdul, Rucha, Vishal, Praneeta, Jatin, Shilpa and Naina- for all the scientific discussions we had in our JC.

Life in NCCS as a Ph.D. student was like a roller-coaster ride with ups and downs. Batch-mates and friends have played a pivotal role in this phase of life. My special thanks to my batch-mates for sharing and being there during ups and downs of my Ph.D.

I can never forget the joyous time I shared with my family away from home. Yes guys I am talking about you-Arya, Manasi and Manas. Being junior most in the
group I enjoyed all the pampering. I will miss our cooking (actually eating), T.V. time, chit-chat, late night Maggie sessions and random unplanned trips. Thanks for your support. I cannot imagine life in NCCS without the three of you. Ankita and Rutuja- gals, you are my soul sisters. Love you both. I didn’t realize we will develop such a great bond in such a small time. Seriously speaking I am going to miss the time we spent together; and Niharika (little angel) you are missed. A special thanks to Ashish and Priyanka for all the travelling and exploring eating outlets in Pune.

The Ph.D. journey would have been extremely dull if it wasn’t accompanied with travelling. Thanks to my travelling group- Praveen, Sagar-Kalyani and Inder-Anushri, guys I seriously have no words to express the love and care you all have given me apart from all the beautiful and unplanned travel memories. I just regard myself a lucky to cherish your company. A special thanks to Praveen for just being around during all the planning’s. Apart from travel, you have been there to constantly motivate and help me.

I am also thankful to my friends all around the globe- (alphabetically)- Ayush, Ajay (Ajya-Bhaiya), Bhavin (HRD), Gaurav, Jiten (Chotu), Hasan, Rohan (Bokya), Roshan, Sandeep, Saurabh, Shrinivas, Sneha (you were always there for accompanying me in my extra-curricular activities), Tushar, Purva, Vibhuti, Vijay, Vipul Jadhav and Yatin- for being just a call away. Without you guys life would have been a lonely road.

My acknowledgements will be incomplete if I do not mention about the never ending love, encouragement and constant support of my family throughout my life. Since childhood they have always encouraged me to strive hard to achieve my goals. Mom, you are my inspiration, strength, and confidence which allow me to face every challenge and come out of it undefeated.

At last but not the least, I would like to thank the Almighty, who I believe has been by my side all the time.

Swati
