</table>
5.8 The pretest and post test Mean and SD of male patient’s (Premature ejaculation patient group) sexual dysfunction.

5.9 The pretest and post test Mean and SD of female patient’s (Vaginismus patient group) sexual dysfunction.

5.10 The pretest and post test Mean and SD of female patient’s (Female orgasmic disorder patient group) sexual dysfunction.

5.11 The pretest and post test Mean and SD of male spouse’s sexual dysfunction.

5.12 The pretest and post test Mean and SD of female spouse’s sexual dysfunction.

5.13 The correlation co-efficient between sexual dysfunction and sex knowledge of male patient in the pretest.

5.14 The correlation co-efficient between sexual dysfunction and sex knowledge of female patient in the pretest.

5.15 The correlation co-efficient between sexual dysfunction and marital adjustment of male patients in the pretest.

5.16 Shows the correlation co-efficient between sexual dysfunction and marital adjustment of female patients in the pretest.

5.17 The correlation co-efficient between sexual dysfunction and emotional intelligence of male patients in the pretest.

5.18 The correlation co-efficient between sexual dysfunction and emotional intelligence of female patients in the pretest.

5.19 The correlation co-efficient between sex knowledge and marital adjustment of patients in the pretest.

5.20 The correlation co-efficient between sex knowledge and emotional intelligence of patients in the pretest.

5.21 The correlation co-efficient between marital adjustment and emotional intelligence of patients in the pretest.
5.22 The correlation co-efficient between sexual dysfunction and sex knowledge of male patients in the post test. 221
5.23 The correlation co-efficient between sexual dysfunction and sex knowledge of female patients in the post test. 223
5.24 The correlation co-efficient between sexual dysfunction and marital adjustment of male patients in the post test. 225
5.25 The correlation co-efficient between sexual dysfunction and marital adjustment of female patients in the post test. 227
5.26 The correlation co-efficient between sexual dysfunction and emotional intelligence of male patients in the post test. 229
5.27 The correlation co-efficient between sexual dysfunction and emotional intelligence of female patients in the post test. 231
5.28 The correlation co-efficient between sex knowledge and marital adjustment of patients in the post test. 233
5.29 The correlation co-efficient between sex knowledge and emotional intelligence of patients in the post test. 235
5.30 The correlation co-efficient between marital adjustment and emotional intelligence of patients in the post test. 237
5.31 The correlation co-efficient between sexual dysfunction and sex knowledge of male spouses in the pretest. 239
5.32 The correlation co-efficient between sexual dysfunction and sex knowledge of female spouses in the pretest. 241
5.33 The correlation co-efficient between sexual dysfunction and marital adjustment of male spouses in the pretest. 243
5.34 The correlation co-efficient between sexual dysfunction and marital adjustment of female spouses in the pretest. 245
5.35 The correlation co-efficient between sexual dysfunction and emotional intelligence of male spouses in the pretest. 247
5.36 The correlation co-efficient between sexual dysfunction and emotional intelligence of female spouses in the pretest.

5.37 The correlation co-efficient between sex knowledge and marital adjustment of spouses in the pretest.

5.38 The correlation co-efficient between sex knowledge and emotional intelligence of spouses in the pretest.

5.39 The correlation co-efficient between marital adjustment and emotional intelligence of spouses in the pretest.

5.40 The correlation co-efficient between sexual dysfunction and sex knowledge of male spouses in the post test.

5.41 The correlation co-efficient between sexual dysfunction and sex knowledge of female spouses in the post test.

5.42 The correlation co-efficient between marital adjustment and sexual dysfunction of male spouses in the post test.

5.43 The correlation co-efficient between marital adjustment and sexual dysfunction of female spouses in the post test.

5.44 The correlation co-efficient between sexual dysfunction and emotional intelligence of male spouses in the post test.

5.45 The correlation co-efficient between sexual dysfunction and emotional intelligence of female spouses in the post test.

5.46 The correlation co-efficient between sex knowledge and marital adjustment for the spouses in the post test.

5.47 The correlation co-efficient between sex knowledge and emotional intelligence of spouses in the post test.

5.48 The correlation co-efficient between marital adjustment and emotional intelligence of spouses in the post test.

5.49 The mean, SD and critical ratio of patient’s sex knowledge in the pre and post test.
5.50  The mean, SD and critical ratio of spouse’s sex knowledge in the pre and post test.

5.51  The mean, SD and critical ratio of patient’s marital adjustment in the pretest and post test.

5.52  The mean, SD and critical ratio of spouse’s marital adjustment in the pretest and post test.

5.53  The mean, SD and critical ratio of patient’s emotional intelligence in the pretest and post test.

5.54  The mean, SD and critical ratio of spouse’s emotional intelligence in the pretest and post test.

5.55  The mean, SD and critical ratio of patient’s (male erectile disorder patients) sexual dysfunction in the pretest and post test.

5.56  The mean, SD and critical ratio of patient’s (premature ejaculation patients) sexual dysfunction in the pretest and post test.

5.57  The mean, SD and critical ratio of patient’s (vaginismus patients) sexual dysfunction in the pretest and post test.

5.58  The mean, SD and critical ratio of patient’s (female orgasmic disorder patients) sexual dysfunction in the pretest and post test.

5.59  The mean, SD and critical ratio of male spouse’s sexual dysfunction in the pretest and post test.

5.60  The mean, SD and critical ratio of female spouse’s sexual dysfunction in the pretest and post test.

5.61  The ANOVA (2x2x2) of male erectile disorder variable on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence.

5.62  The ANOVA (2x2x2) of premature ejaculation variable on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence.
5.63 The ANOVA (2x2x2) of vaginismus variable on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence.

5.64 The ANOVA (2x2x2) of female orgasmic disorder variable on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence.

5.65 The ANOVA (2x2x2) of non sensuality dimension of sexual dysfunction on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence.

5.66 The ANOVA (2x2x2) of avoidance dimension of sexual dysfunction on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence.

5.67 The ANOVA (2x2x2) of non-communication dimension of sexual dysfunction on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence.

5.68 The ANOVA (2x2x2) of infrequency dimension of sexual dysfunction on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence.

5.69 The ANOVA (2x2x2) of dissatisfaction dimension of sexual dysfunction on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence.

5.70 The ANOVA (2x2x2) of overall sexual dysfunction dimension of sexual dysfunction on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence.

5.71 The ANOVA (2x2x2) of male erectile disorder on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence.

5.72 The analysis of variance (2x2x2) of premature ejaculation on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence.
5.73 The analysis of variance (2x2x2) of vaginismus on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence. 322

5.74 The analysis of variance (2x2x2) of female orgasmic disorder on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence. 323

5.75 The ANOVA (2x2x2) of non-sensuality dimension of sexual dysfunction on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence. 325

5.76 The ANOVA (2x2x2) of avoidance dimension of sexual dysfunction on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence. 327

5.77 The ANOVA (2x2x2) of non-communication dimension of sexual dysfunction on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence. 329

5.78 The ANOVA (2x2x2) of infrequency dimension of sexual dysfunction on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence. 332

5.79 The ANOVA (2x2x2) of dissatisfaction dimension of sexual dysfunction on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence. 334

5.80 The ANOVA (2x2x2) of overall sexual dysfunction on the basis of two levels of sex knowledge, marital adjustment and emotional intelligence. 336
