Acknowledgments

It is my great privilege and pleasure to have grown under the guidance of my supervisor Dr. K. Ashok. I shall always remain grateful to him for giving me an opportunity to think and work independently. His valuable guidance, constant care and kind encouragement throughout the course, made me present this thesis in an efficient manner. His ability to find the solution to each and every problem with positive attitude and cool nature, not only impressed me but whoever approached him for any kind of support. I would also like to express my deep gratitude to Dr. P. Swapna for her motivation and all kinds of help & support during the course.

I am grateful to Prof. B. N. Goswami (Former Director) and Dr. R. Krishnan (Director, IITM) for awarding fellowship, providing an opportunity to work in this prestigious institution. Thanks are also for allowing me to attend various national and international conferences which helped me a lot in completing this work. I am indebted to IITM for its facilities such as Library which made my work worthwhile and satisfying. I would also like to acknowledge the support of Dr. H. P. Borgaonkar, Coordinator Academic cell, for smoothly completing the tiresome official formalities. I am thankful to the RF/RA committee IITM, for all the suggestions right from Ph. D registration to thesis submission. I would also like to express my sincere thanks to my M. Tech Professors Dr. Pradeep Kumar, Dr. D. K. Paul, Dr. P. N. Sen, Dr. K. C. Sinharay, Dr. Karipot and thus to the Department of Atmospheric and Space Science, Pune for creating interest and building up a firm base to carry out research in this area.

I duly acknowledge the organizations such as NCEP-NCAR; ECMWF (ERAInterim) and NCEP.

I want to express my deepest gratitude to Dr. A. K. Sahai, for helping me to analyze Self Organizing Map (SOM) results. Thanks are also to Sandip Ingle for helping me in all technical issues. The list will not complete without Dr. Terray Pascal, who helped me a lot to achieve my third objective. Many thanks to my colleagues and friends at IITM especially Madhura, Ramarao, Jyoti, Pallavi, Rashmi, Dr. Revadekar, Dr. Roxy,
Dr. Ashwini Kulkarni, Aditi, Fousiya, Sayantani, Soumi, Rahul as well as each and every member of Centre for Climate Change Research of IITM.

Much thanks to my Husband Mr. Manas Marathe for his unconditional love, support, patience and faith on me. The innocent smile of my son Keyur and his childhood activities motivated and gave me immense energy to complete the work. Their presence and patience made this journey memorable one. My Granny (Shakuntala) and my parents (Jayamala and Shriram Date), without their blessings, inspiration and support, I would have never come this far. My sister (Shamika), my parent in-laws as well as all my family members have showered their love and benevolent support all through, for which mere expression of thanks is not adequate.

I would also like to take this opportunity to express my sincere thanks to all those who involved at any point of time directly or indirectly in bringing this thesis in final form and I truly apologize for missing out their names. Unflinching faith of my family, teachers and friends on my capabilities and overall, the blessings of God have provided me the ultimate strength to carry on and achieve this feat.

Shamal Manas Marathe
