4. Plan of Work
4.0 PLAN OF WORK

1. Literature survey in details.

3. Pharmacognostic Studies:
   I. a) Organoleptic properties
      b) Morphology
      c) Microscopy etc.
   II. Proximate chemical analysis
        a) Qualitative analysis
        b) Quantitative Analysis

4. Phytochemical investigations:
   Extraction – Crude extract
   1) Qualitative analysis
   2) Quantitative analysis

5. Pharmacological Screening:
   I) Toxicity Studies
   II) Screening of Anti asthmatic activity
       a) In Vitro models
       b) In Vivo models

6. Isolation & Characterization

7. Pharmacological evaluation of isolated compounds
