Acknowledgements

'It is a moment of gratification and pride to look back with a deep sense of contentment and gratitude at the long travelled path, to be able to capture some of the finest moments, to be able to thank the infinite number of people, some who were with me from the beginning and some who joined me later, whose kindness, love and blessing have brought this day. I wish to thank each one of them with all my heart'.

Words seem insufficient to express my deep sense of gratitude to my research guide Dr. Suresh S. Jadhav, Executive Director, Serum Institute of India Limited. His insights, careful attention to details and years of experience has helped to maintain the level of quality of my work. I consider myself privileged to work with him, for having shared his vast experience, knowledge so generously and patiently.

It gives me great pleasure to express my heartfelt gratitude to my research co-guide Dr. Bhushan Patwardhan, Professor, Interdisciplinary School of Health Sciences, Pune University, for his incomparable mentorship, guidance and motivation throughout the work. I will remain highly indebted for his support. He helped me giving different dimensions to my thinking and abilities. His constant quest for knowledge and strive for excellence will always remain a source of inspiration throughout my life.

I express my deep sense of gratitude to Dr. Sunil Gairola (Director, Serum Institute of India), Dr. Yojana Shinde (Senior Manager, Serum Institute of India) and Dr. K. Suresh (Additional Director, Serum Institute of India) for facilities and suggestions on applicability study that constitutes important part of the study. I am highly indebted to Dr. Sunil Gairola for his constant active support, guidance and mentorship throughout this research work.

I am also grateful to Dr. Sarang Bani, (Senior Scientist, Department of Molecular Pharmacology, Indian Institute of Integrative Medicine, Jammu [IIIM, Formerly, Regional Research Laboratory, Jammu]) for facilities and guidance on flow cytometric work in this study. My special thanks to Dr. Anita Kar (Director, ISHS, Pune University) for providing necessary research facility in Health Sciences and Dr. Anjali Radkar (Scientist, Health Sciences) for her guidance in data analysis.

My sincere thanks to Dr. Kalpana Joshi (Adjunct Immunology Faculty, ISHS and Head, Department of Microbiology, Singhad College, Pune) and Dr. Sham Diwanay (Scientist, Garware College, Pune) for valuable discussions, support and
constructive criticisms throughout my research work. I am thankful Dr. Vinita Bal (Senior Scientist, National Institute of Immunology, Delhi), for their suggestions on Th1-Th2 model used in this study.

I must express my heartiest thanks to Dr. Manish Gautam (Assistant Manager, SIIRF), for his consideration and appreciation for my efforts and special guidance not only for research work but also for personal problems made me feel proud of getting his company throughout my research work. I will never forget his kindness and his encouragement to work hard.

I am also thankful to Dr. Amit Agarwal (Director, R & D, Natural Remedies, Bangalore) and his team for extraction and contaminants assays on test material. I thank teaching (Dr. Aarti, Mrs. Shilpa Shirole, Anjaline madam, and Dr. Sangita) and non-teaching (Pandurang mama, Mr. Kulkarni, Mr. Shedage) staff of ISHS for their cooperation. It is a real pleasure to thank my research colleagues (ISHS) especially Dr. Girish, Dr. Dnyaneshwar, Dr. Preeti, Dr. Yogita and Mr. Amrutesh for their cooperation during the research work.

My sincere thanks to Indian Drug Research Association Laboratory (IDRA, Pune), Agharkar Research Laboratory (ARI, Pune) and Bio-Ved, Pune especially Mr. Deshmukh, Dr. A. M. Majumdar (Head, Botany Department) and Mr. Nitin Athavle for allowing me the unrestricted use of their respective laboratory facilities. I must thank Dr. Amol Harshe (Nobel Hospital, Pune) and Anuradha mam (CRD, Pune) and for their technical support during analysis of hematological parameters throughout my research work.

My special appreciation for Dada Patil (HPLC analysis) for his un-ending assistance and collaboration during the research work. He also happen to be my best friend who made difference to my stay at Health Sciences during the research work.

I take this opportunity to express heartfelt gratitude towards Serum Institute of India Research Foundation for supporting our study. I am also thankful to administrative staff Mr. Y.C. Dhake, Mrs. Sunderlata, Mr. Vinayak, Mr. Pramod and Mr. Amoldeep. I am also thankful to staff of animal house as well as Quality Control department especially Dr. Sovle, Mr. Dodake, Mr. A. K. Sharma, Mr. Anil Dagade, Mr. Sunil Kulkarni, Ravidas Shinde, Nilesh and Raju.

Friendship is a treasured gift and fine friends are very few, I express my immense thanks to all my friends who have directly or indirectly helped me in completion of my dissertation work especially Dr. Narsingh Sachan for providing
support and encouragement when I needed it most. I am also thankful to my colleagues Sandeep and Manoj. It is impossible to forget the stimulating wishes of my beloved juniors who have been very helpful in completing this work. Santanu, Madan, Camy, Umesh, Sumit, Nripendra, Rahul, Shiv, Mithilesh, Paritosh and Ashish.

It is said that 'accomplishments must be credited to those who had put up the foundations of the particular chore'. I pay tributes to my parents for lifting me up till this phase of life thank them for their unconditional, persistent and enthusiastic support and emotional backup during the doctoral work. I owe everything to them. Thanks also go to elder brother Vinod Mishra and his wife, Smita for their constant positive support which has boosted my morale. My special admiration for sisters, Mala Pandey and Pooja Tripathi who supported me with patience and un-stinted encouragement during the research work.

Research Fellowships from Department of Science and Technology (DST), Govt. of India and Serum Institute of India Research Foundation (SIIRF) are also gratefully acknowledged.

I will remain forever indebted to the lives of the animals, sacrificed, during the experiment, which was done with the noble purpose of widening of horizons of science.

Last but not the least; I would like to thank the Almighty for giving me the strength and courage to face any situation in life.

Sanjay Kumar Mishra
