### CONTENTS

1. **Introduction** ................................................................. 1

1.1. Water Consumption and Exploitation .................................. 2

1.2 Bottled Water Industry .................................................. 14

   1.2.1 Global Scenario .................................................. 14

   1.2.2 The Bottled Water Industry in India ............................ 22

   1.2.3 The Kerala scenario ............................................. 24

   1.2.4 State of Water Resources ..................................... 25

   1.2.5 Issues in water sector ......................................... 26

1.3 The Kerala State Water Policy – 2007: Rationale ................... 26

   1.3.1 Objectives of the Policy ...................................... 28

   1.3.2 Water Use Priorities ......................................... 28

   1.3.3 Water-Use entitlement ....................................... 29

1.4 Present Problem .......................................................... 30

1.5 Objectives of the Study ................................................. 31

   1.5.1 General Objectives ............................................. 32

   1.5.2 Specific objectives: ....................................... 32

1.6 Hypotheses: ................................................................. 33

1.7 Methodology ................................................................. 33

   1.7.1 Coverage ....................................................... 33

   1.7.2 Source of data ............................................... 34

   1.7.3 Sample design ............................................... 34

   1.7.4 Data management and analysis .............................. 38

1.8 Relevance of the Study .................................................. 38

1.9 Limitations ................................................................. 41

1.10 Schematic arrangement .................................................. 41

   Works Cited ........................................................... 42
2. Review of Literature ........................................ 44
   2.1 Water as a precious but exploited resource ................. 44
   2.2 Growth, structure and economic aspects of bottled water industry ........................................ 57
   2.3 Environmental and Health Issues of Bottled water Industry .. 60
   2.4 Measures to ensure water quality and avoid plastic pollution
   Works Cited ........................................ 68

3 Bottled Water Industry – A Profile ................................ 88
   3.1 Global Review ........................................ 95
      3.1.1 Giants in Bottled Water Industry .................. 97
   3.2 Technology of Bottled Water ................................ 99
      3.2.1 Sources of Water .................................. 101
      3.2.2 Water Purification .................................. 102
   3.3 Health Hazards of Bottled Water .......................... 114
   3.4 Adequacy of Prescribed Standards ................................ 123
      3.4.1 Other National and International Standards considered during the preparation of the two standards. 128
      3.4.2 Enforcement of standards through the .......... 129
      Bureau of Indian standards product certification scheme.
      3.4.3 Adequacy of Number of Inspections .............. 131
      and Withdrawals of Samples.
      3.4.4 Scheme of Testing and Inspection (STI) .......... 131
      for packaged drinking water.
      3.4.5 Effectiveness of Testing Facilities .................. 132
      3.4.6 Status of Alignment of BIS Standards .......... 135
      with corresponding International Standards
   Works Cited ........................................ 137
### 4. Bottled Water Industry in Kerala: Economic and Environmental Aspects

#### 4.1 Economic Aspects

- **4.1.1** An overview of Production Structure in bottled water industry
- **4.1.2** Diversified Production by the Firms
- **4.1.3** Duration of Work in Bottled Water Firms
- **4.1.4** Volume of Production
- **4.1.5** Investment Aspects of the Bottled Water Industry
- **4.1.6** Employment Scenario in the Bottled Water Industry in Kerala
- **4.1.7** Cost Structure in the Industry
- **4.1.8** Mode of Marketing
- **4.1.9** Profit Earned by the Industry

#### 4.2 Environmental Aspects

- **4.2.1** Plastic Waste Created by the Bottled Water Industry
- **4.2.2** Water Utilization by the Bottled Water Firms

#### 4.3 Strata Wise Analysis of Bottled Water Industry in Kerala

### 5 Findings and Suggestions

#### 5.1 Findings

- **5.1.1** Evaluation of hypotheses

#### 5.2 Suggestions

#### 5.3 Conclusion
