# LIST OF TABLES

1.1 Water Storage Created Per Person ........................................ 6
1.2 Water Usage Predictions for 2025 and 2050 .................................. 8
1.3 Water Resource Potential (India and Kerala) ................................. 10
1.4 District-Wise Groundwater Potential of Kerala ............................... 11
1.5 Regional Consumption of Bottled Water in 2003-04 ....................... 18
1.6 Ten Major Consumers of Bottled Water 2003-2004 ......................... 20
1.7 Sample Design ........................................................................ 36
3.1 Global Bottled Water Growth 1997-2007 ..................................... 96
3.2 The Global Companies’ Share of Bottled Water market .................. 98
4.1 Type of Ownership of Bottled Water Firms in Kerala ..................... 142
4.2 Product Diversification of Sample Units ...................................... 143
4.3 Duration of Work ..................................................................... 144
4.4 Monthly Production of Bottled Water by Firms ............................ 145
4.5 Current Annual Production of the Bottled Water Firms .................. 147
4.6 Bottled Water Production in India ............................................. 149
4.7 Initial Ownership of Land by the Bottled Water Firms ................... 150
4.8 Initial Investment of buildings and Machinery by the Firms .......... 151
4.9 Further Investment on Building and Machinery ............................ 153
4.10 Ownership of Transport – Equipment by the Industrial Units ...... 154
4.11 Total Fixed Cost of the Bottled Water Firms ................................. 155
4.12 Comparative Analysis of Initial and Current
    Total Employment in Bottled Water Industry Kerala ................. 157
4.13 Employment Generation by the Bottled Water Firms ................... 159
4.16 Increase in Wages in Bottled Water Firms (2005-2009) .............. 164
4.17 Women Employment in Bottled Water Firms ........................................ 167
4.18 Change in Proportion of Women In Total Employment .......... 169 in Bottle Water Firms
4.19 Total Labour Cost in the Industry ............................................ 172
4.20 Labour – Cost Per Litre ............................................................. 173
4.21 Cost of Production Per Litre ...................................................... 173
4.22 Initial And Current Monthly Profits of the Bottled
    Water Firms – A Comparison .................................................. 175
4.23 Percentage Change in Profit of Bottled Water Units ............... 176
4.24 Profit/Litre of the Industry ....................................................... 177
4.25 Current Monthly Profits of the Industry ................................... 178
4.26 Annual Production of Plastic in India ........................................ 181
4.27 Average Per Capita Consumption of Plastic (2001) ................. 182
4.28 Consumption of Plastic Bottles per Month ............................... 184
4.29 Source of Water for the Firms .................................................... 186
4.30 Water Utilization / litre ............................................................. 187
4.31 Total Annual Water Consumption ............................................. 188
4.32 Capacity of Pumps Used for Water Extraction ......................... 189
4.33 Registration of Water–Source ..................................................... 190
4.34 Initial and Current Annual Water Consumption ..................... 191    by the Bottled Water Units in Kerala
4.35 Strata-wise analysis of Bottled water industry in Kerala .......... 196
4.36 Analysis of Economic Aspects of Bottled
    Water Firms in Kerala (2009) ................................................ 200
4.37 Production and Water Consumption in
    Bottled Water Industry .......................................................... 201
4.38 Employment of Women in the Bottled Water Industry .......... 202
