PREFACE

The State Financial Corporations play a very crucial role in development of business and industries of every state of India. The economic progress of our country is directly related with the industrialisation and the State Financial Corporations are in existence to give financial and other assistance to industries of India specially to Small and Medium sized industries.

India offers a great potential to exploit the area of industrialisation. State financial Corporations have played a desired role in giving assistance for establishing the industries. Uttar Pradesh Financial Corporation has been very much prone to increase the industrialisation of Uttar Pradesh and that is why it has created its offices all over the state for the sake of wide coverage in all parts of the state.

The present attempt is to acquaint the entrepreneurs, consultants and financial brokers with the vast area of working of state Financial Corporations specially the Uttar Pradesh Financial Corporation. An endeavour has been made to cover all about Uttar Pradesh Financial corporation. Although, it is
not possible to include every thing on Uttar Pradesh Financial Corporation, yet I think that proper coverage for all the activities has been given.
