ACKNOWLEDGEMENT

It gives me an immense pleasure to owe a debt of gratitude to my supervisor Dr. Vikas Mishra Dept of Physics, D.B.S. College Kanpur for his invaluable supervision & dedication that led me to give the present form to my research work.

I express my indebtedness and sincere thanks to Dr. S. K. Mishra, Principal, D. B. S. College, Kanpur for constant encouragement, stimulating discussion and sustained interest throughout the phase of my work.

I shall be equally indebted to Dr. N. Singh (Ex. Principal Nehru College, Chhibramau) for his keen interest and help at various stages of this work. In fact his nice behaviour and well informed ideas formed the core of inspiration to do level best.

I have immensely benefited from the learned discussions of my seniors Devendra Kumar, Anand Kumar and Nidhi Sengar my colleagues Rajnish, Sudhir Trivedi.

I appreciate the help received from Dr. K. K. Srivastava, Reader, Department of Physics, D. B. S. College, Kanpur in preparing various computer programs and rearranging the thesis in the present form.
I wish to record my gratitude to my father Shri R. K. L. Srivastava and my mother Smt. Vidya Srivastava who encouraged me and stood besides me at difficult times.

I shall be failing in my duty if I miss the opportunity in appreciating the extra ordinary patience and unending inspiration shown by my husband Mr. Atul Kumar Srivastva and my beloved son Arnav, who did not disturb me during my work.

PRIYA SRIVASTAVA
