ACKNOWLEDGEMENTS

I express my deep and profound gratitude to my supervisor, Professor A.N. Nigam, for his valuable guidance, constant encouragement and for introducing me to the subject of X-ray Spectroscopy. His vast experiences and stimulating guidance in the field helped me a lot throughout the course of present investigations. I shall remain ever grateful to him for having inculcated in me the spirit of hard work.

I wish to express my sincere thanks to Dr. A. Kumar of his untiring efforts and interest in my work. He played a key role in the present work.

I am grateful to Dr. V. P. Tayal and Dr. D. N. S. Srivastava for encouraging me during the present work and for the academic discussions.

It is a great pleasure to acknowledge the cooperation extended to me by the Research Scholars of this department. In particular, the assistance given by Miss S. Goel, Mr. O. P. Rajput, Mr. R. Mathur, Miss B. Prakash, Miss N. Kapoor, Mr. M. Zulfequar, Mr. S. K. Tripathi, Mr. R. K. Shukla, Mr. S. Swarup, Mr. K. K. Srivastava and Mrs. R. Arora.

My sincere thanks are also due to one and all of the non-teaching staff of the physics department.

I am also grateful to Mr. G. P. Sharma, DMSRDE, for his help in microphotometering the spectrograms, UGC for financial support and to the authorities of M.B.T.I., Kanpur for providing me the research facilities.
The work carried out here would have not been possible without the emotional support and constant encouragement from my family. I wish to express my profound regards to my parents and my younger brothers.
