ACKNOWLEDGEMENT

It is moral duty to express my sincere and deepest gratitude to my guide and supervisor Dr. M.D. Upadhyay, Reader in the Department of Mathematics, Lucknow University, who has been kind enough to inspire and encourage me from time to time. It would have not been possible for me to write this thesis without his able guidance and supervision.

I am thankful to Professor Dr. R.P. Agarwal, Head of the Department of Mathematics and Astronomy, Lucknow University for providing research facilities in the department.

I am highly obliged to my teacher Prof. R.S. Mishra at Banaras Hindu University and now Vice-Chancellor Lucknow University for providing me his valuable publications. I owe to him a debt of gratitude for his suggestions from time to time.

I am also thankful to the staff of the Departmental library of Mathematics Department, Lucknow University for their cooperation and help.
