ACKNOWLEDGEMENTS

It is my great pleasure to express my deep and profound gratitude to my supervisor DR. ASHOK KUMAR for his valuable guidance, constant encouragement, untiring efforts and keen interest in the progress of this work. I shall remain ever grateful to him for having inculcated in me the spirit of hard work.

I am also very much indebted to Prof. A.N. Nigam whose vast experience and stimulating guidance in the field of X-ray Spectroscopy helped me a lot during the entire work.

I wish to express my sincere thanks to Dr. V.P. Tayal, Dr. D.N.S. Srivastava and Dr. A.K. Singh for encouraging me during the entire period of my research.

It is my great pleasure to admit the courtesy extended to me by all my research colleagues, Dr. R.K. Shukla, Dr. A.K. Agnihotri, Dr. S.K. Tripathi, Dr. K.K. Srivastava, Dr. S. Swarup, Dr. S. Kumar, Dr. Renuka Arora, Dr. Sangeeta Goel, Dr. Pragya Agarwal, Dr. Renu Tripathi, Mr. P.K. Dwivedi, Mr. S.K. Agrahari and Mr. Sanjay who helped me from time to time in many ways.
I am also grateful to Mr. S.S. Agnihotri for his help in typing the present thesis as well as to Mr. N.S. Srivastava for tracing the figures.

The work carried out in this thesis would have not been possible without the emotional support and constant encouragement from my family members. In this connection I want to record my special thanks to my sister Mrs. I. Srivastava and brother-in-law Sri S.P. Srivastava, who with their incessant cooperation and emotional support, helped me finalise this work.

Finally, I feel it my spiritual obligation to express my inestimable indebtedness to my father Sri S.P. Srivastava, who although inspired me to take up new challenges. He made incalculable efforts in bringing up my capability to initiate this work. I shall remain ever indebted to my father without whose patience and genuine concern, this thesis would have never seen the light of the day.
