ACKNOWLEDGEMENT

I take this opportunity to express my deep sense of gratitude and sincere thanks to Professor O.P. Juneja, Department of Mathematics, Indian Institute of Technology, Kanpur for his inspiring guidance, invaluable suggestions and constant encouragement throughout the phase of this work. In fact his nice behaviour and well informed ideas formed the core of inspiration to do level best.

I am also grateful to Professor J. N. Kapur, Professor R.S.L. Srivastava, Dr. B. L. Bhatia of Department of Mathematics and Mr. S.L. Srivastava, Registrar (Finance) of I.I.T. Kanpur who helped me directly or indirectly at several stages without which it would have not been possible to come up with this work.

It is indeed my duty to express my thanks to the Director, I.I.T. Kanpur for providing me research facilities at I.I.T. Kanpur.

I have all the gratitudes to my learned teacher Professor N. Saran whose blessings and affection have been a constant source of inspiration to me.

I am also very much conscious of extending my warm thanks of appreciation to my various friends including my departmental colleagues who have shown interest in this work. My special thanks go to my friend W. Singh for his fruitful cooperation.
I am also obliged to express my gratitude with all my heart to my brothers Shri G.L. Srivastava and Vijay Prakash who helped me in completing this work.

I am also very much grateful to my wife 'Vinay' for extraordinary patience which she has shown during all this period of her ordeal.

I finally thank to Mr. S.S. Pethkar for his excellent typing of the thesis.
