ACKNOWLEDGEMENT

It has been a great experience for me to work in the field of Video/Image Processing. It introduced me to different and realms of research areas. For my research problem, several reputed people have influenced, motivated, inspired, supported unconditionally and assisted me during the entire course of this research work and it is my profound desire and pleasure to acknowledge their valuable and impeccable support.

All of first, I am forever obliged to respected beloved Prof. Shashidhara.H.L, my Supervisor and Mentor for providing me a noble opportunity to work with him and has been a constant source of inspiration and the soul of my research work. His guidance, suggestions, vigor and keenness in discussions has come a long way in framing this research work. I am thankful to him for his critical and painstaking reviews of the manuscripts. I cannot forget his kindly and human attitude in the span of my research work. I owe him a lot for all the advice he has offered to me whenever I need them most, at the right time. It is my privilege to have such a gem of a person as a Supervisor.

I would like to express my sincere thanks to a special person Prof. K.N.Balasubramanya Murthy, Co-Supervisor, who influenced me to start the research work. He is my teacher and role model who always advised me to aim higher in any aspect which would eventually resulted in a great career. I owe him a lot for showing a bright path of knowledge and blessed to have such a great person as my Co-Supervisor.

I would like to express my sincere thank to Electronics & Communication Engineering Department, Anna University for providing me an opportunity to do the research work. I would like to thank on faculty members and staff of the department who either directly or indirectly helped, assisted to complete the research programme.

I would like to thank Telecommunication Engineering Department, PES Institute of Technology for providing me a work place for the conduction of experiments. I would like to specially thank Prof. V.Vinayadutta Kohir and Prof.D.R.Rameshbabu for providing valuable inputs during the doctoral committee meeting.

Special thanks are also due to Mr. M.J.Raghavendra, for helping me in conducting some experiments and help offered in the review of the manuscripts and Mrs.S.Santameena for helping me to translate the abstract from English to Tamil. Thanks are due to some of my Undergraduate and Postgraduate students for conducting some of the experiments. Also, I would like to thank all those who directly and indirectly helped me for the completion of the research work.
It would be incomplete if I do not mention the un-conditional support, love and encouragement I have received from my wife Smt. B.S.Archana and my kid Hrishikesh P Shreeranga. It is their constant backing which has helped me in reaching this position today. My current status and position owes a lot to them. It would be incomplete if I do not mention the love, affection of my mother which refreshed and backed me for this research work.

Finally I would like to DEDICATE this research work to my beloved father Late H.R.SrinivasaMurthy who dreamt of my higher career and academic growth.

All these people through God’s grace have inspired me for the successful completion of the research work.

H.S.Prasantha
