## ABSTRACT

### 1 INTRODUCTION

1.1 Aim and objectives

### 2 LITERATURE REVIEW

2.1 High Performance Liquid Chromatography (HPLC)

2.2 Instrumentation of HPLC

2.3 Chromatographic Parameters

2.4 Development and validation of stability indicating method

2.5 Parameters for method validation

2.6 Statistical validation

2.7 Drug Profile

### 3 RESEARCH ENVISAGED

3.1 Need for present work

### 4 EXPERIMENTAL

4.1 Reagents

4.2 Apparatus and equipment

4.3 General procedures- Paliperidone
4.4 General procedures- Nabumetone 52
4.5 General procedures- Satranidazole 57
4.6 General procedures- Valganciclovir 61
4.7 General procedures- Valsartan and Hydrochlorothiazide combination 66

5 RESULTS AND DISCUSSION 72

5.1 Paliperidone 72
5.2 Nabumetone 96
5.3 Satranidazole 113
5.4 Valganciclovir 130
5.5 Valsartan and Hydrochlorothiazide combination 148

6 CONCLUSION 175
