ACKNOWLEDGEMENT

First and foremost, I would like to acknowledge my supervisor and Dean (Faculty of Life Science) Prof. Jharna Chakravorty, for her continuous and enduring support to my Ph.D. research work, for her faith and belief on me, constant encouragement and motivation and patience. Her contribution of time and ideas, immense knowledge on the subject, made my research productive. I appreciate her with the deepest of my heart for her constant guidance throughout my research.

I am thankful to Prof. D.N. Das (Head, Department of Zoology), Prof. H.N. Sarma, Dr. Daniel Mize, Dr. Manuj Kumar Bharali, Dr. Pankaj Kumar, Dr. Hiren Gogoi and Mr. M. S. Singh for being the members of Departmental Research Council, their technical suggestions and moral support.

I have been very fortunate to know Prof. V. B. Meyer-Rochow of Jacobs University, Germany and Oulu University, Finland. I have learned a lot after working with him.

I am very grateful to reviewers of my research articles, for their comments which broadened my research perspective. My special sense of gratitude is due to all those scientists, whose books, reports and published articles contributed to my understanding the nutrition science, enabling me to deal with the theme of this thesis.

I am thankful to the knowledgeable village elders of Dhemaji district of Upper Assam for sharing their enormous knowledge, cooperation during my field survey and sample collection. I am grateful to my uncle Bhuban Buragohain and Mukut Phukan who have helped me physically with the species collection from various sites of Dhemaji District and for providing information regarding the edible sericigenous insects.

In regards to the chemical analyses, I thank to Prof Mousumi Poddar Sarker Kolkata University; Dr. Ajay Kumar, JNU and Prof Sudhakar Swami, Madurai Kamraj University for providing facilities (instrumental set up) to carry out my experimental work. I would like to acknowledge all persons somehow associated with the analytical work, the chemical suppliers from Guwahati (specially Bhaskar Da) for my experimental works.
I also extend my thanks to the funding authority of UGC for providing me RGU fellowship in order to accomplish my research necessities and for completion of my Ph.D. work.

I am thankful to Dr. Sampat Ghosh (Post doctoral fellow at Andong University, South Korea) for his incomparable support whenever required.

My heartfelt thanks to my entire laboratory mates Karsing Megu, Salomi Jugli, Mohsin Raza, Sonam Drema Tukshipa, Pura Yashung, Jaya Narah and Nyaton for their constant help, moral support whenever required. I am also thankful to Lab. assistant Moses Mesar and Anjana Majumdar.

I convey my special thanks to every members of the Department of Zoology; laboratory staffs Mr. Pitam Jomoh, Mr. Munna Rai, Mr. Techi Kamtung, Mr. Amit Bhattacharya, official staffs, Tana Loma and my fellow colleagues and researchers.

My time at RGU was made enjoyable in large parts due to my beloved friends and sisters of Dibang Halls of Residence (DHOR) for their immeasurable love, friendship and moral support. Not to forget one of my closest friend Ms. Chayanika Das and Mr. Rajiv Das (Delhi) for their immeasurable help during my stay at Delhi for some analytical works.

Also, my thanks to all the Administrative employees, other employees of water supply (specially Bikash) and electricity department of RGU. My special thanks to my sister Mrs. Manju Handique (RGU Campus) for her help at the time of need.

Last but not the least, my thanks are also due to all those names which cannot be mentioned here but have helped me to scale the arduous journey to accomplishment.

Finally, my deepest thank goes to my parents and my beloved husband (Mr. Rajen Konch) for their prayers and moral support throughout my research.

R.G.U. campus

Mallika Gogoi
