Acknowledgement

First of all I feel extremely grateful to the almighty and omnipresent ‘GOD’ for always giving me patience, strength and everything whatever I need to overcome the difficulties in my way of life, without the mercy of God this task could not have been a success ever.

I have no words to express my heartfelt gratitude to my respected supervisor Dr. D. K. Singh, Head, Department of Botany, K. R. (P. G.) College, Mathura for his benign co-operation, constant and inspiring guidance, fruitful discussion loving and friendly nature and unending zeal during the entire course of this investigation without his able guidance this task could not have been accomplished so fruitfully. I cannot forget his sincere involvement, help and boosting my moral for the completion of my research work.

I also wish to express my profound gratitude Dr. Ravi Sharma, Former Head, Department of Botany K. R. (P. G.) College, Mathura and Ex-Principal ESS ESS College of Education, Dayalbagh Agra, for his kind co-operation valuable help and guidance from beginning to end in developing required design and tests use for this study as well as the preparation of this manuscript. I cannot forget his sincere involvement, help and boosting my moral for the completion of my research work.

I am very much obliged and thankful to Dr. S. K. Sharma, Retd. Head Department of Botany K. R. (P. G.) College, Mathura who has helped me in statistical analysis and co-operated very sympathetically during the period of research work.

I am very much indebted to respected Dr. Raj Kamal Jain, Retd. Head Department of Botany K. R. (P. G.) College, Mathura for his constant encouragement and always me moral support at confidence at all the level of my research work.

I am greatly indebted to Dr. Ajay Tyagi, Principal, K. R. (P. G.) College, Mathura for his kind help in providing the basic facilities for carrying out this research study.

Special thanks are due to Mr. Achintya Sharma M.D. Agrim Technosoft Pvt. Ltd., Agra/Delhi and Dr. Nidhi Sharma for their cooperation at all time for the completion of the entire thesis work.

My sincere thanks are due to my fellow research scholars in the Departments of Botany, K. R. College, Mathura Mrs. Snehlata, Mrs. Abha Pathak and Mrs. Kapila Saraswat for their direct and/or indirect help and co-operation rendered by them during the whole course of work.

Number of well wishers so kindly helped me for to time to time and their encouragement has contributed a lot of the successful completion of this stupendous work. It is however, not possible to thank them individually due to paucity of space. Yet a grateful mention may be made to Mr. R. K. Saxena, Mrs. Geeta Singh for their help.

My thanks are due to Dr. A. K. Rawat, Ex-Librarian and other staff of the Central Library K. R. College, Mathura and to the Dr. Amil Upadhyay, Dy. Librarian and other staff of the Central Library Dr. B. R. Ambedkar University, Agra who have generously extended their help during the collection of literature on the subject.
I am also thankful to Non Teaching Staff, especially Lab Asstt. Late Shri Rajvir Singh, Rajendra Sharma, Raghunath Singh, Santosh Kumar, Bhuri Singh and Librarian Shri Alok Mishra for their support.

I have learnt a lot of my life lessons from my parents my father Shri Ajant Singh and my mother Smt. Sobhanshri who have been my main source of inspiration. I offer my gratefulness to them. One of the most important ingredients that goes in to making a good researcher is curiosity for their unconditional love, faith and support along my father-in-law Dr. R.S. Yadav Ex-Professor of Education HNB Garhwal Central University, Srinagar (Uttarakhand) and family members my sisters Meera Yadav, Seema Yadav and my younger brother Kuldeep Singh, Dheeraj Yadav and sister-in-law Preeti Yadav who expended me great help in constant working and completion of the present work, for their tremendous help and moral support. Finally, the most cordial appreciation goes to my wife Smt. Indira Yadav and beloved son master Krishna without their support I would not have accomplished the major task at this junction of my life.

At last, but not least, I would like to gracefully acknowledge all the persons and administrations who were directly or indirectly involved and helped me in overcoming the difficulties faced during the research work.

Last but not the least I owe a deep sense of indebtedness to all the scientists, researchers and authors whose works are cited or substantially made use of in this research work. I am also thankful to all the persons who directly or indirectly assisted me in bringing out this work.
