ACKNOWLEDGEMENT

The interdependence is a reality of academic venture. One's is the product of one's labour but can not forget the gratitude, she owes to her friends and associates, who have contributed the various ways towards the final outcome. In this reference, I gratefully express my gratitude to the Principal D.B.S. College Kanpur, Dr. A. K. Srivastava, who has provided abundant facilities. His useful suggestions, constructive criticisms and directions at every step of investigation, have been vital for the finalisation of this work.

The present work has been completed under the supervision and also guidance of Dr. J. P. Shukla M.Sc., Ph.D., Reader Department of Botany, D.B.S. College, Kanpur. It is difficult to express adequately the sense of gratitude, I owe to him for his austere and noble guidance as well as unimaginable zeal during the entire period of present investigation in the preparation of this manuscript.

I owe my gratitude to Dr. I.M. Senwal, Head of the Department of Botany D.B.S. College, Kanpur, who gave me valuable suggestions and provided every possible help.

I feel paucity of words to express my respect and regard to my respected father, mother and mother-in-law for their constant inspiration and blessing in accomplishing this work.

Further I would like to pay my sincere thanks to my husband Sri Manoj Pandey, who have inspired me for doing the research work and his full co-operation at every step.

I am also thankful to Sri Anand Dubey, who devoted considerable time and energy as well as took special pains, without whose co-operation the thesis could not have been completed in time.

Lastly, I wish to express my sincere regards to respected brothers, sisters, relatives and friends.
