List of Tables and Figures

**Table 2.1:** Average estimates of lactation and reproductive traits in Hariana cattle.

**Table 2.2:** Body condition score of cattle and heifer

**Table 4.1:** Livestock population growth trend in Hariana (in thousands)

**Table 4.2:** Livestock population growth trend in Hariana Breeding Tract (2003-2007)

**Table 4.3:** Mean (± SE) family size and land holding of sampled household

**Table 4.4:** Details of livestock of sampled households

**Table 4.5:** Mean (± SE) herd composition of respondent households

**Table 4.6:** Cattle breeding practices followed by the respondents

**Table 4.7:** Cattle Housing practices followed by the households

**Table 4.8:** Milking management practices followed by households

**Table 4.9:** Healthcare practices adopted by respondents

**Table 4.10:** Common health problems in cattle encountered by the farmers

**Table 4.11:** Constraints on cattle management practices faced by respondents.

**Table 4.12:** Least squares means (± SE) of body condition score of Hariana cattle in different categories and seasons.

**Table 4.13:** Mean (± SE) of monthly test day milk yield (kg) of Hariana cows in field

**Table 4.14:** Mean (± SE) of production parameters of Hariana cows under existing field conditions of its breeding tract

**Table 4.15:** Mean (± SE) of production traits of Hariana cows based on the information of respondents

**Table 4.16:** Cost and returns from milk production of Hariana cows across different seasons of the year

**Figure 1:** Composition of livestock population in Haryana (Livestock census 2007)

**Figure 2:** Hariana calves

**Figure 3:** Hariana Heifers

**Figure 4:** Hariana Cow

**Figure 5:** Hariana Cow with calf at foot

**Figure 6:** Hariana Bull

**Figure 7:** Hariana Bullock
