ACKNOWLEDGEMENT

The present investigation was planned and conducted under the guidance of Prof. R.K. Sharma, Head of Department of Horticulture, Kulbhaskar Ashram Degree College, Allahabad. His versatile genius and sincere exhortation were the best guide to lead the accomplishment of present task. I am immensely thankful for his personal and careful efforts, valuable guidance and helpful criticism during the course of this investigation, that gave this thesis the present form. My grateful thanks are also due to him for providing necessary facilities during the course of this investigation.

I am grateful to Dr. K.C. Srivastava, Principal, K.A. Post-graduate College, Allahabad for providing necessary facilities during the course of investigation and member of staff of Department of Horticulture, K.A. Postgraduate College, Allahabad, who helped me during the course of the investigation.

I am thankful to Dr. M.P. Singh, Director Extension, Dr. Ranvir Singh, Prof. & Head, Department of Horticulture and Dr. J.P. Tiwari, Associate Prof. Horticulture, G.B. Pant University of Agril. & Tech., Pantnagar, Nainital for providing necessary facilities and help during the course of investigation.

I am personally thankful to Dr. Ganesh Kumar, Assistant Prof., Department of Horticulture and Dr. K.K. Misra, Junior
Research Officer, G.B. Pant University of Agril. & Tech., Pantnagar for inspiration, kind help and valuable suggestions during the course of investigation.

The author is also thankful to Dr. V.K. Srivastava, Prof. Mathematics, G.B. Pant University of Agril. & Tech., Pantnagar, for his being kind enough in helping me for the statistical analysis of the data.

I also wish to express my gratitude to Sri H.P. Srivastava, Sri Chandra Bhushan Misra and Sri R.C. Yadav for their valuable help during the period of work.

Sri S.N. Agrawal deserves special word of thanks for neat typing of the manuscript.

Sincere thanks to seen and unseen fellows, who helped me directly or indirectly during the course of investigation.

ALLAHABAD
