ACKNOWLEDGEMENTS

I am grateful to Dr T. Balasubramaniam, Vice-Chancellor, CARE, Ms S. Jeyendrasaraswathi, Registrar, CARE and Dr B. Santhakumar, Dean, CHRI for providing me the opportunity to do research work and necessary infrastructure to complete the work successfully.

I express my sincere gratitude to my guide Dr T.K. Balaji, Professor of Anatomy, CHRI for accepting me as his student and guiding me through the entire process of my research work. I am thankful for his keen interest and patience he had shown me and indebted to him for bringing the best out of me.

I sincerely thank Dr R. Murugesan, Director-Research, CARE and Dr N. Srinivasan, Convener – Research, CARE for their valuable suggestions during the periodic review meetings and for their constant support and guidance.

I wish to thank Dr S. Indumathi, Professor and Head and all my colleagues in the department of Anatomy for their encouragement and support they have extended during the tenure of my research. My sincere thanks go to technicians and non-teaching staff of the anatomy department.

I express my gratitude to Dr R. Vijayashree, Professor and Head, Department of Pathology, CHRI for offering her expert opinion on histopathological findings of my work. I thank Dr K. Ramesh Rao, Professor of Pathology for helping me with the morphometric analysis. I thank Dr Govindaraju, Statistician for providing statistical support.

I am grateful to Dr M. Lakshman, Professor & Head, Department of Veterinary pathology, P.V. Narsimha Rao Telangana Veterinary University, Hyderabad for rendering his help in interpreting the electron microscopic results.

I also thank Dr T. Shobita Devi, Veterinary Medical Officer and Mr. Vijaya vel, technician and other staff of the animal house for their technical support. I am very grateful to the Physiology department and Faculty of Allied health
sciences for allowing me to utilize their laboratories. I also express my gratitude to Swathi Priyadarshini, Meera, Manigandan and Vinayak Meti, fellow research scholars for assisting me in lab work. I also extend my thanks to the research section of CARE for their constant support.

I owe thanks to Dr Muhammed Ibrahim, Assistant Professor of Anatomy, Dr A.L. Mudaliar Postgraduate Institute of Basic Medical Sciences, University of Madras, Dr K. Desigamani, Professor of Biochemistry, Tagore Medical College and Dr Ahamed Basha, Associate professor of Physiology, CHRI for their valuable inputs.

Words are insufficient to thank all the members of my family for their prayers and moral support.

I thank almighty for the blessing he showered on me without which this work would not have materialized.

S. Manickam
