ACKNOWLEDGEMENTS

It is my duty to acknowledge all those who made this study successful. First of all I thank the almighty god for showering his grace and eternal blessing on me in making this work possible. I thank the authorities of Yenepoya Medical College, especially the Honorable Chancellor Mr. Yenepoya Abdulla Kunhi, Honorable Vice Chancellor Dr. M. Vijay Kumar, respected Registrar Dr. G. Shreekumar Menon, Principal Dr. M. S. Moosabba for giving me an opportunity to pursue PhD in Medical Microbiology and also for permitting me to conduct this study in this prestigious institution.

With a deep sense of heartfelt gratitude I owe my sincere thanks to my esteemed teacher, mentor and ever inspiring guide Dr. Vidya Pai, Professor and HOD, Department of Microbiology, Yenepoya Medical College and Co-guide Dr. Rajagopal K., Professor and HOD, Department of OBG, Yenepoya Medical College, Mangalore, for their guidance, patience, critical evaluation, constant encouragement and support at every step, which helped in timely completion of this thesis.

I would like to express my sincere thanks to Dr. Vinitha R. Pai, Deputy Director PhD Program & Professor of Biochemistry, Yenepoya Medical College, for her proper guidance and continuous help during the entire course of this study. My sincere thanks to Dr. B. S. Rao, Dr. Dhanashree B., Dr. Ashwini Hegde, Dr. Shalini Shenoy and Dr. Radhakrishna Manipura, for periodically reviewing my work and helping me in improving my study with their suggestions.

My deepest thanks to Dr. Arun AB and Dr. Rekha PD, Professor and Deputy Directors, and all other staff of Yenepoya Research Centre, Yenepoya (Deemed to be University), for their valuable support.

I would like to extend my thanks to the clerical staff and attending staffs for their co-operation in this venture.

I take this opportunity to express my profound and sincere thanks to all teachers from the Department of Microbiology and Department of OBG, especially Dr. Sadiqaunnisa,
Associate Professor, Department of OBG for her support, prompt help and timely advice during the entire period of the course.

I also wish to thank the Post graduate residents of Department of OBG, Nursing staffs and Technical staffs for their co-operation and help during this study. I would also like to thank my colleagues Mr. Jitendra Chandra Devrari, Dr. Ryhan Bashir and Dr. Tariq Ahmed Shah for their help and cordial cooperation and valuable support in this venture.

Above all I am extremely grateful to my family, Mr. Brijesh Kumar Saxena, Mrs. Pushpa Saxena, Mr. Vijay Kumar Saxena, Mrs. Priyanka Shrivastava and Mr. Praveen Shrivastava and my friends, Dr. Saiqa Shah, Dr. Shireen Sharma and Dr. Shaiwal Saxena for their love, care, motivation, patience and for supporting me in my endeavors. I thank them wholeheartedly for their constant support, encouragement and motivation. I am grateful to them for always standing beside me in every walk of my life helping me to achieve my goal, without them this was not possible. Whatever I am today is because of them.

Most importantly, I thank all the patients, without whom this study would not have been possible.

Varsha Saxena
