ACKNOWLEDGEMENT

First and foremost, I would like to thank the Almighty Allah for His blessing in the accomplishment of this work. “All my success in my task can come only from Him. In Him I trust and unto Him I turn”

I deem it to be a rare opportunity and the proudest privilege to express my profound sense of gratitude, sincere honour and veneration to my advisor Professor Suhcharan Singh Department of Food Engineering and Technology for his sagacious and benevolent guidance, constant encouragement, motivation, valuable suggestions, ever ready assistance, invaluable criticism, keen interest and untiring efforts during the entire research period.

I express my profound gratefulness to my cosupervisor and head of the Department of Food Engineering and Technology, Professor Paramjit Singh Panesar for his diligence, valuable suggestions and boosting my morale that made the achievement of this goal easier.

I am highly grateful to Professor Shailendra Jain, Director, Sant Longowal Institute of Engineering and Technology, for providing the opportunity to carry out the research work in this Institute of excellence.

I would like to thank all faculty members of the Department of Food Engineering and Technology for the constant support during my research work. I also extend my warm thanks to Mr. Manoj Pandey, Mrs. Praveen Goyal, Mr. Laxmi Narayan, Mr. Devendra Singh and Mr. Om chand Singh for providing the necessary facilities and help in carrying out the research work.

I thankfully acknowledge University grants commission for providing me Maulana Azad National fellowship for smooth conduct of this research work.

I owe a deep debt of gratitude to National bureau of plant genetic resources Shimla for providing the Chenopodium quinoa varieties to carry out this research.

I am profusely thankful to my friends Ms suheela bhat, Ms Shumaila Jan, Ms
Ishrat majid, Ms Rimpi and Mrs Rupinder for their affection, happy environment and encouragement. I cherish the sweet memories of good company with my lab mates and other fellow scholars Mrs Arti chauhan, Mrs Sangeeta, Ms Romee jan, Mr. Mudasir, Mr Aqib, Mrs Insha Rafiq, Mrs. Kulsum Jan, Mrs. Monica premi, Mrs Garima Singh, Mr. Tajamul Rouf, Mr. Narender and Mr Rayees. I am also grateful to my roommate Amanda malik for being supportive and helping.

I don’t have words to express my emotional feelings towards my beloved father Mr. Mohammad Najeeb Khan and mother Shaheen Parveen who showed their love and affection towards me throughout the work, even though living miles apart from me and longed to see this achievement come true. This work would have been rather incomplete without their cooperation, moral support and constant inspiration.

I am highly indebted to my younger sisters Ms Khan Zarafshan and Ms Khan Zeeshan for their unconditional support, encouragement, affection, inspiration and care which made this work easier.

I also record my appreciation to my mother in law Mrs Rehana, father in law Mr Showkat ali Hamdani, brother in law Mr Saqib Rehman Sheikh and sister in law Mrs Nuzeefa Showkat for their pleasant association and help in various forms.

It gives me pleasure to place on record my profound sense of appreciation and heartfelt gratitude to my beloved husband Mr. Junaid Showkat Hamdani for his much needed affection, moral encouragement and constructive criticism.

Finally, I thank all those who have helped me directly or indirectly in the successful completion of my thesis.

(Khan Nadiya)
