ACKNOWLEDGEMENT

I wish to express my deep sense of gratitude to Dr. T.N. Shukla, M.Sc.(Ag), Ph.D. (Einn.U.S.A.), Plant Pathologist, U.P. Institute of Agricultural Sciences, Kanpur for suggesting the problem, benevolent guidance, keen interest and healthy criticism throughout the course of investigation.

I am deeply indebted to Dr. H.K. Saksena, Professor and Head Division of Plant Pathology for his ever willingness to help me and extending necessary facilities during the course of work.

I am also grateful to Dr. Dharampal Singh, Director, Dr. Babu Singh, Joint Director, U.P. Institute of Agricultural Sciences, Kanpur for providing the necessary facilities.

Sincere thanks are due to Uttar Pradesh Government for the award of Fellowship during the tenure of which this work was carried out.

I am extremely thankful to Dr. H.C.P. Rao, Project Coordinator (Sorghum) and Head, I.A.R.I., Regional Research Station, Rajendra Nagar, Hyderabad (Andhra Pradesh) and Economic Botanist (Oilseeds and Millets), U.P. Institute of Agricultural Sciences, Kanpur for supplying the seeds of sorghum germ plams for research work.

I take this opportunity to thank Dr. A.N. Khanna, Economic Botanist (Rabi Cereals), U.P. Institute of Agricultural Sciences, Kanpur for extending his whole-hearted help as and when needed by me.
I am equally thankful to all of my colleagues and friends who rendered help in my work at different stages specially to Mr. S.K. Singh Chauhan for his help in preparation of the manuscript.

Finally, I am highly indebted to my respected parents, who have been the source of inspiration and also thankful to Shri. Uma Pandey, my wife, who kept me out of domestic worries during the course of investigation.

(Suresh Chandra Pandey)
