ACKNOWLEDGEMENT

I wish to express my sincere gratitude and heartfelt thanks to Dr. Anuradha Mishra, my Ph.D. Supervisor for her immense help, valuable guidance, constructive criticism, encouragement and moral support throughout the research work.

I am grateful to Prof. Dayal Saran, Director, Institute of Engineering & Technology, C.S.J.M. University, Kanpur for his constant support.

I am thankful to Dr. Tapan Raoth, Incharge, Zonal Laboratory, National Environmental Engineering Research Institute, Kanpur, Dr. R.P. Mishra, Scientist, Central Pollution Control Board, Kanpur and Dr. Padma S. Vankar, Incharge, Facility of ecological and analytical testing, Indian Institute of Technology, Kanpur for their valuable help in recording the XRD patterns, IR, AAS and evaluation of COD of effluent samples.

I wish to express my gratitude to Dr. Upma Srivastava and Dr. S.P.S. Bhadauria, Lecturers Deptt. of
Adult and Continuing Education and Extension, C.S.J.M.
University, Kanpur for their moral support, constant
inspiration and encouragement during the research work.

I wish to express my appreciation and heartfelt thanks
to my senior colleagues Dr. Monika Agarwal, Dr. S.
Rajani, Miss. Vandana Tiwari, Mrs. Rashmi Dubey and
my junior colleague Miss. Malvika Bajpai for their co-
operation during the course of research work.

This thesis would remain incomplete without conveying
my deepest gratitude to my Mother, Father, Sister-in-law
and my Brothers for their moral support, constant
encouragement and guidance.
