Acknowledgements

At the beginning, I pay my reverence from inner core of my heart to the Almighty God for giving me the source of all wisdom, health and strength to undertake this research task and without whose blessings it may have not been possible to complete my objective fulfilled.

With profound and due respect, first I would like to express my sincere gratitude to my teacher and my supervisor Prof. Harbans Kaur Kehri F.B.S., F.P.S.I., F.N.R.S. Her wide knowledge, logical way of thinking, patience, motivation and enthusiasm have been of great value for me. Her valuable remarks, suggestions and encouragement bestowed in the progress of my work, as well as critical evaluation has been a source of everlasting inspiration to me. I could improve myself because of her kind support and suggestion.

I owe a special debt of gratitude to Prof. D. K. Chauhan, Head, Department of Botany, University of Allahabad, Allahabad, for providing necessary laboratory and library facilities during the course of my studies and a constant moral support which capacitated me to complete the research work successfully.

I would like to express my sincere gratitude and deep regards to my esteemed teachers Late Prof. Sudhir Chandra, Prof. G.K. Srivastava, Prof. B. Lal, Prof. G.L. Tiwari, Prof. D. R. Mishra, Late Prof. P.K. Khare, Prof. (Mrs.) Nupur Bhowmik, Prof. D.N. Shukla, Prof. Anupum Dikshit, Prof. (Mrs.) Manju Sahney (Former Heads), Prof. (Mrs.) Monica Basu, Prof. S.C. Agrawal, Late Dr. S. P. Tiwari, Prof. Girjesh Kumar, Prof. N.B. Singh, Prof. S.M. Prasad and Prof. Satya Narain for their valuable cooperation and encouragement during my research work.

I am also thankful to the Office, Store and Library staff of the Department of Botany, especially Mr. Bishan Singh, Late Mr. H.C. Joshi, Mr. M. M. Bhatt, Mr. B.K. Tiwari and Mr. Jagdish Joshi for their help and cooperation during the course of my studies.
I would like to express my sincere regards to my seniors Dr. Raghvendra Pratap Narayan, Dr. (Mrs.) Nidhi Sharma, Dr. Varun Khare, Dr. (Mrs.) Pooja Rai, Dr. Avinash Pratap Singh, Dr. Pallavi Rai, Dr. Ashish Mishra (Dr. D. S. Kothari Fellow), Dr. (Mrs.) Rani Mishra for their commendable guidance and logical discussions from time to time throughout research period.

I am also thankful to my lab colleagues Mr. Ovaid Akhtar, Ms. Ifra Zoomi, Mr. Dheeraj Pandey, Mr. Kanhaiya Lal Chaudhary and Ms. Uma Singh for their generous and splendid cooperative role. Needless to mention their help and joyful company during the entire course of experiments and thesis writing and obviously in my odd times also.

I would also like to gratefully acknowledge to my friends Dr. Harshita Dwivedi, Dr. Gausiya Bashri, Dr. (Mrs.) Neetu Chaudhary, Ajay Kumar and Aruna Mishra who all deserve complements for their cherished friendly behaviour during the period of study and research.

I am also thankful to General Manager, IFFCO, Phulpur, Allahabad and Dr. H.M. Shukla of the same organization who very kindly provided me fly ash for my experimental work. Their assistance in analyzing the physico-chemical properties of soil and fly ash is also duly acknowledged.

Special Thanks to Mr. Sushil Kumar, our lab Attendant for his assistance during course of the study.

My cordial thanks to Mr. Rajeev Mishra for his admirable help in editing, formatting and compilation of thesis and giving it a presentable get up.

I would like to express Gratitude to UGC (University Grant Commission) for financial support.

Finally, I feel short of words to express my heartiest gratitude to my loving parents Sri Prem Narain Srivastava and Smt. Kiran Lata Srivastava for their utmost cooperation, affection, encouragement and all due parental care throughout my
education. I am also thankful to my dear elder brother Mr. Pramilesh Srivastava and Bhabhi Mrs. Sandhya Srivastava, my sweet elder sister Mrs. Pranjali Sinha and brother-in-law Mr. Aseem Sinha and my lovely niece Saarya and Aahana for lending their outstanding cooperation and inspiration at all stages of work. They are real source of illumination and also the most generous, caring and trustful friends in my life. Without their invaluable contribution I would have not been able to achieve this long targeted goal of Doctorate.
