Acknowledgement

All of us are capable of miraculous achievements and when there are people caring enough to help and support, then no barrier and no problem insurmountable. I would like to express my gratitude to many persons who have benefited me with their constructive criticisms and needful suggestions.

Mere words are inadequate to express my gratitude to my esteemed guide and supervisor Professor U.C. Chaturvedi, FNA, MD, FAMS, FRC Path (London), FNASC, FASC, FAAM (USA), Head of the Postgraduate Department of Microbiology, King George's Medical College, Lucknow. Working under his expert guidance was a memorable experience. His generosity, alacrity and constant encouragement in clarifying doubts has helped me in giving this work a final shape. I am lucky to have collected a few drops of knowledge from the Ocean of knowledge he has.

I want to thank Professor Asha Mathur, FNA, for her constant help and healthy suggestions.

I am grateful to Professor L.C. Mishra, Dean, Faculty of Life Sciences, SSJM Kanpur University, Kanpur for his encouragement to achieve my goal.

I am also grateful to Dr. D.N. Rao, Associate Professor, Department of Biochemistry, AIIMS, New Delhi for his needful suggestions and allowing me to work on HPLC instrument in his lab.

I would also like to thank Dr. A.K. Agarwal, Scientist E1, Industrial Toxicology Research Centre, Lucknow and Dr. B.S. Srivastava, Deputy Director and Head, Division of Microbiology, CDRI, Lucknow for their constructive criticism and valuable help.

My heartful thanks to Dr. Rachna Nagar for boosting up my morale throughout the work.

I am extremely thankful to Dr. Pratibha Chaturvedi, who always supported me to move ahead with my work. She has been a constant source of encouragement for me. Thanks are also due to Dr. Rinnee Mukherjee for her suggestions and help.
Dr. Ritu Tandon is gratefully acknowledged for her keen interest throughout the study.

I am thankful to Miss Meenakshi Khare for her kind suggestions and cooperation.

"Friend in need is a friend indeed" is suitable to express my attachments to Mr. Pranay Deep Khare and Mr. Raj Kamal Tripathi who have always boosted up my morale. They have been always with me at times of despair and difficulties.

I want to thank my colleagues Dr. Ruma Mukerjee, Dr. Renu Agarwal, Dr. Sangeeta Kapoor, Miss Anita Misra, Miss Urmila Singh, Miss Arti Shukla for providing healthy atmosphere in the lab.

I am thankful to my M.Sc. Life Science Junior Batch including Mr. Manoj Kumar Pandey and Mr. K.K. Mishra for their friendly attitudes.

Thanks are due to Mr. Deepak, Mr. Adiraj, Babu, Mr. Naresh Kumar, Mr. Abhijit, Manish, Sunil, Bobby and Dr. D.M. Tripathi for their friendly attitudes.

I must acknowledge the technical assistance and administration of Shri M.C. Goel, V.S. Negi, R.S. Negi, Zahid Hussain, Jai Singh, Sri Ram, Sri Ram Pal, Shiv Prasad, Mangal, Deepak, Ganesh, Prem Nath, Ashish, Bacchulal and Azad. I have received their full cooperation during the work hours.

My gratitude goes to Mr. Varun Arora, Mr. A.H. Saifi and Arvind Maurya for their excellent skill that gave the publication of this thesis its final shape. S.H. Zaidi is thanked for his needed help.

Last but not the least, the love showered on me by the members of my family, sister Vartika and Brother-in-law always boosted up my spirit throughout this academic pursuit.

Fellowship awarded by University Grants Commission, New Delhi and King George's Medical College, Lucknow is gratefully acknowledged.
