ACKNOWLEDGEMENT

It gives me great pleasure to express my gratitude and thankfulness towards my superior Prof. (Dr.) G. N. Mathur for suggesting to me the research problem and for his able guidance throughout the course of the present study. I gratefully acknowledge the permission accorded to me by Prof. Mathur for carrying out the work on the Research Laboratory of the Composite Department in DMSRDE.

I wish to express my sincere thanks to Mr. M. N. Saraf for his invaluable suggestions and help to accomplish this task.

I am thankful to Mr. R. K. Gupta and Ms. Surekha for their help in the accomplishment of this dissertation.

My special thanks to Dr. Nasim, Dr. Arvind K. Saxena, Mr. R. P. Rai, and Ms. Popsy Saigal for their help rendered to me.

I would also like to give my thanks to Dr. A. K. Srivastava (HBTI) for his help. I am also grateful to Dr. S. Johri (Head of Chemistry Deptt. D.G. College) for her help and encouragement.

I would like to thank Dr. (Mrs.) S. Puri for her invaluable help and advice given to me. I would also like to thank all my friends and colleagues for their help and encouragement.

Lastly, I am very thankful to my husband and my family whose patience, encouragement and moral support made this work possible.
