ACKNOWLEDGEMENTS

Words fail me to express my sense of gratitude for Dr. A.M. Kidwai. I am immensely grateful and indebted to him for his excellent guidance, valuable suggestions, useful/fruitful discussion and exalting inspiration throughout the course of this study. His magnanimous and indepth knowledge of the subject always came in handy for my rescue at every difficult step of this work.

I wish my sincere thanks to Dr. R.K. Upreti for infusing inspiration at every stage of this work. He always willingly spared much of his precious time to discuss my problems. Without his painstaking pursuits this thesis could never have seen the light of the day.

I am thankful to Prof. P.K. Ray, Director, Industrial Toxicology Research Centre, Lucknow, for providing necessary facilities.

The help of Dr. V.K. Bajpai, Electron Microscope Unit, CDRI, Lucknow, in providing laboratory facilities for carrying out the electron microscopic studies is gratefully acknowledged. My thanks are due to Mrs. Manjali for providing the necessary help.

I am extremely grateful to Dr. S.K. Hasan, Dr. M.M. Hussain for providing constant encouragement and valuable help from time to time throughout the course of this dissertation.
I wish to record my thanks to a number of colleagues and associates who have generously helped me during the course of this study. Thanks are due to Mr. V.G. Misra, Dr. (Mrs) Shobha Sharma, Dr. (Mrs) Smita Tondon, Dr. (Mrs) Kavita Gupta, Mr. Mohd. Ibrahim, Mr. Sanjeev Shukla, Mr. Anuj Deep, Miss Ranjana and Mr. Shoeb. I am highly obliged to my friends, Parveen, Naheed, Nayyara, Tanveer, Geeta and Achla for their unfailing help at every stage of this work.

It is a particular pleasure to acknowledge the friendly encouragement, educational influence and constant inspiration which I received from my father-in-law Prof. Mahdi Hasan.

I wish to express my sincere gratitude to my parents for their love, care, and above all blessings. Thanks are due to my brothers Mr. Mohsin Ali Khan and Mr. Meesan Ali Khan for their help, support and encouragement.

Words would be inadequate to express my heartfelt gratitude to my mother-in-law and husband Dr. Abbas Ali Mahdi. His thoughtful understanding, inspiration and helpful suggestions were of great source of encouragement for me throughout the course of this work.
I am thankful to Mr. Joseph George, for the meticulous typing of this thesis.

I am also thankful to the Indian Council of Medical Research for providing Junior and Senior Research fellowships to carry out this work.
