ACKNOWLEDGEMENT

Words and lexicons can not do full justice in expressing a deep sense of gratitude and indebtedness towards my esteemed supervisor Dr. R.P. Singh, Assistant Professor, Department of Oil and Paint Technology, H.B. Technological Institute, for his valuable, inspiring, indespensible and unfailing guidance with constant encouragement in carrying out the present work. It's indeed a pleasure to work with him.

The presentation of this thesis offers me a great opportunity to express my sincere thanks to my learned teacher Dr. R.K. Khanna, Assistant Professor, Department of Oil and Paint Technology of this institute for helping me in many ways during the course of this work.

The contribution of other faculty members Shri P.K. Tiwari, Dr. R.K. Trivedi, Dr. V.K. Tyagi and Dr.(Mrs.) M. Bajpai can not be overlooked. Their timely help, guidance, keen interest and valuable suggestions helped me towards better completion of my work.

I am highly thankful to Dr. V.K. Jain, Director, H.B. Technological Institute, Kanpur for providing infrastructural facilities for this research.

I am extremely thankful to Mr. S.P. Gupta, Ex. R&D Manager, M/s Kusum Products Ltd., Calcutta, Dr. D.K. Bhattacharya, Professor, Calcutta University and Dr. Ghafoorunissa, Dy. Director, NIN, Hyderabad for their suggestions and encouragement throughout the research work.
I also thank my sister Dr. Ruby Srivastava and bother-in-law Dr. Atul Srivastava for their assistance in the clinical studies undertaken during my research work. Words are poor representation of my real sentiments towards my parents for their incessant encouragement and superb vigilance in the execution of this study. I acknowledge the inspiration that I owe to my husband Mr. Neeraj Srivastava without whose cooperation it would not have been possible for me to complete this work.

My special thanks to my colleagues Dr. Anupama Mathur, Ms. Subha Singh, Ms. Sunita Seth, Ms. Deepti Shikha, Dr. Shishir Sinha and Mr. M.M. Dixit for their cherished friendly cooperation.

Finally, and by no means least I am grateful to Technology Mission of Oilseeds & Pulses (TMO&P) and Council of Scientific and Industrial Research (CSIR) for funding and monitoring the scheme under which the present research was done.

(RUCHI SRIVASTAVA)
