Acknowledgements

I bow ones head in pious feet of the founder of Banaras Hindu University, Mahamana Pandit Madan Mohan Malviya Ji, a great man with great vision for creating such wonderful educational place.

I express my sincere gratitude to my mentor, Dr. Akhtar Ali for his faith, encouragement, continued support and giving me the freedom to learn from my mistakes. His ideas and advice have been crucial for development of my scientific and professional attitude. His constructive ideas and critical analysis have provided good basis for the present study. Not only he cared for my Ph.D. work but he has always encouraged me for my future endeavours.

Patient’s recruitment is always a crucial step for any study of this kind. I am very thankful to Dr. Subodh K. Singh, G S Memorial Plastic Surgery Hospital & Trauma Center, Varanasi, Dr. Visweswar Bhattacharya, Sir Sundarlal hospital, Banaras Hindu University, Varanasi, Dr. FM Tripathi, Swami Harshankanandji Hospital, Varanasi and Dr. Anjali Rani, Department of Gynaecology and Obstetrics, IMS-BHU for their help with limb malformation patient’s recruitment and clinical details. At the same time, I am also thankful to the patients and healthy volunteers for their precious blood samples.

I convey my appreciation and thanks to present and past coordinator of Centre for Genetic Disorders, Prof. Parimal Das, and Prof. Rajiva Raman for providing all the centre facilities and support. I would also like to acknowledge my heartfelt thanks to the members of my research progress committee, Prof. Parimal Das, Dr. Amit K Rai, Prof. JK Roy and Dr. Kiran Singh for their suggestions and discussions about the research work during RPC presentations. I am also thankful to CRC members of CGD for approving my RPC reports. I am also thankful to Prof. Rajiva Raman, Dr. Pawan Kumar Dubey, Dr. Subodh K. Singh and Dr. Visweswar Bhattacharya for their valuable suggestions during RPC presentations. I thank the present and past coordinator of DBT-BHU-ISLS for providing facility of microarray. I also convey my gratitude to Dr Bhagyalaxmi Mohapatra for proving me pRL-TK vector.
I would also like to thank to research scholars of CGD Mr. Shiv Prakash Verma, Mr. Tanmor Sarkar, Mr. Sushil Kumar Jaiswal, Ms. Sonam Raj, Mrs. Tamali Halder, Ms. Pooja Chauhan, Mr. Chandrabhan Singh, Mr. Vivek Kumar Pandey, Mr. Ravibhusan and Dr. Garima Jain for their support and precious suggestions over concerning issues. I appreciate the help and support I received from my colleague and roommate, Ms. Pooja Chauhan who stands beside me whenever I needed. I would like to thanks all the research scholars of Cytogenetics unit of Zoology department and Molecular and Human Genetics department.

I would like to extend my heartfelt thanks to trainees and MD students who worked with me Ms. Neha, Mr. Vatsal, Ms. Toshi Seth, Mr. Suraj Jaiswal, Mr. Awadhesh, Mr. Ratish, Mr. Sheetal, Dr. Archana Gupta, Dr. Jitendra, Dr. Vipul and Dr. Ravish K Zenith. I specially thank to Dr. Abhishek Chandra and Dr. Ravish K Zenith for providing me control samples.

I am also thankful to the non-teaching staff of the centre Indra Bahadur Ji, Bajrang Ji, Jitendra Ji, Kusum Ji, Nadeem Ji, Javed Ji and specially Rahul Ji (helping me during DNA isolation) for their help at many occasions. Financial assistance from DST SERB and Department of Biotechnology (DBT) and Banaras Hindu University in terms of research grants and CSIR JRF and SRF fellowship during my research is gratefully acknowledged.

Special credit goes to my mother, late father, brother, sisters, sister-in-law and friends for their unconditional love, support and concerns in all these years. They have been a constant source of love and strength during my Ph.D. work. Without their admiration, I would not be able to deal with ups and downs of life. Last but not least, I am in a deep sense of gratitude to the Almighty who blessed, cared and showed me the light in tough times.

(Rashmi Patel)
