ACKNOWLEDGEMENT

First of all I raise my heart in gratitude and humble myself before God Almighty, who has given me an opportunity to carry out research work and successfully completing the thesis. Let me thank Him for endowing me with enough health, circumstances, potency and people with willingness to help. Above all I am indebted for His immense blessings in each and every step and to find solutions to difficult circumstances throughout the work.

I express my gratefulness to my guide Dr. G.S. Regini Balasingh, former Vice-Principal and Head of the Department of Botany & Research Centre, Scott Christian College, Nagercoil for consenting to be my guide, esteemed guidance and scholarly suggestions and valuable help.

I sincerely thank Dr. M. Jezer Jebanesan, Principal Scott Christian College, Nagercoil and former Principal’s Scott Christian College, Dr. S. Chellakumar Rose and Dr. E. James Reynold Daniel and the Management of Scott Christian College, Nagercoil for providing necessary laboratory facilities to undertake the research work.

I wish to thank to Dr. P. Charles, Head of the Department of Botany and Research Centre and Dr. C. Kington, former Head of the Department of Botany and Research Centre, Scott Christian College, Nagercoil for rendering all possible help. I indeed thank teaching and non-teaching staff in the Department of Botany for their assistance during the period of my research work. I render my gratitude to Mr. T. Moses, Department of Botany for his kind help during the study period.

I remember with gratitude to Dr. Anand, the eminent personalities and research scholars, CAS in Botany, Chennai for all the necessary facilities provided, advice and
help in the identification of micro algae, suggestions and relevant thoughts regarding the study.

My special thanks to Dr. Sam Manohardhas (Head of the Department of Zoology and Research Centre, Scott Christian College, Nagercoil), Dr. V. Shobha (Rtd. Head of the Department Aquatic Biology and Fisheries, University of Kerala) and Dr. Geetha (Rtd. Head of the Department of Botany, H.H. Maharaja’s Government College for Women, University of Kerala) for their timely help and worthy suggestions in several ways during the tenure of research. I wish to express my sincere thanks to all M.Phil and Ph.D scholars who helped me a lot in completing the investigation.

I also place on record Kerala Agriculture University (KAU), Geological survey of India (GSI-Kerala), Centre for Earth Science Studies (CESS-Kerala), Soil analysis lab (Tamilnadu), TWAD Board (Tamilnadu), Expression Biotech (Tamilnadu) and Scudder Diagnostic Centre (Tamilnadu) for rendering me all possible assistance. I am thankful to all Libraries for providing me all facilities and giving permission to collect necessary data.

I am happy to express my heartfelt thanks to my father Mr. M.V. Joseph, mother Mrs. Annie Mary Saroja. D and sisters Miss. Jibi Joseph and Miss. Jissy Joseph. I owe much to each and every one of my family for their valuable prayers, whole hearted support, tolerance, unlimited patience and encouragement.

I gratefully acknowledge all persons rendered helping hand in need and all those who helped me directly or indirectly.

JIJI JOSEPH
