Acknowledgements

I am deeply grateful to Dr. G. Raju for expending much time on guiding my Ph.D. study and research work during last five years. In this research, he often gave me many distinctive insights and guided me back to the right path when I was going astray. He always encourages me to learn new things and think independently. I have learned substantially from Dr. Raju, particularly about problem solving and presentation of the findings of my research work.

I most sincerely thank Dr. R. Vijayakumar, Director, School of Computer Science, M.G University, who introduced me into the research group and helped me to complete the official formalities of my research and course work. I place on record my deepest sense of gratitude to Rev. Fr. Ruben J Thanickal, Manager and Dr. Ruble Raj, Principal of Marian College. I am also very much indebted to Ms. Rajimol A, the Head of my Department for her support in this project.

Special thanks to Assistant Professors Joby Cyriac and Sumi Joseph for reading this thesis word by word and giving suggestions. I fondly remember the unstinting support extended to me by all my colleagues in the Department of Computer Applications at Marian College Kuttikkanam and thank them wholeheartedly. My special thanks are due to my friends in the School of Computer Science, M G University too.

My deeply felt gratitude goes to Rev. Fr. James Kozhimala and Mr. Bharathi Rajan, Department of MCom, Marian College for providing me the database for the analysis. I thank the students, Mr. Sijo Thomas who helped me in solving the programming part and Ms. Jiya Jijo and Ms. Remya Rose Tom for helping me in documentation.
My family members and relatives supported me all through the process of my research. How can I thank them enough? My parents are the kindly light shining in my life offering prayerful protection. It is my wife Shamini James and my kids Maria, James, and Alphonsa who have shared my pains and joys, doubts and desperations, confusion and clarity, during the course of my work. It was their sacrifice and continued inspiration that has kept me going. Thank You.

Binu Thomas
