ACKNOWLEDGEMENTS

With deep sense of gratitude I express my wholehearted thanks to the authorities of Andhra University for permitting me to enrol and register in the Ph.D. programme of the Department of Physics and all the facilities provided to carryout the research work.

I thank Prof. K. Chandramouli, Professor, Department of Engineering Physics, Andhra University for being a constant support, encouragement and inspiration in preparing the manuscripts of this thesis, reviewing the text, editing wherever necessary and providing invaluable advises during the long preparation process of the thesis.

I thank Prof. K. Samatha, Professor, Department of Physics, Andhra University for all her guidance, encouragement and support during the entire course of the research work.

I thank Prof. V. Veeraiah, Principal, College of Science and Technology for his encouragement and support extended in the matters related to submission.

I thank Prof. K. Niranjan, Head, Department of Physics for his guidance and inspiration.

I thank Prof. D. L. Sastry, Chairman, Board of Studies in Physics, Dr. P. S. V. Subba Rao, Asst. Professor, Dept. of Physics, Andhra University for his continuous help throughout the course of research.

I would like to express a great deal of appreciation to all my Physics teachers whose dedication and commitment encouraged me to carryout research and lead me from the begging to the end.
I would like to acknowledge my teacher Dr. S. Paul Douglas, Assistant Professor, Department of Engineering Chemistry, A. U. College of Engineering (A), Andhra University, in deep sense who is been, in real sense, the source of spark who has set a road map for my research work. It gives me immense pleasure to express my gratitude wholeheartedly for his love, concern and leading from beginning to end.

Special thank are reserved to my cousin J. Nischal Kiran, Associate Professor, Vignan University, Guntur for the constant encouragement and support which make my path easy-going.

I am highly grateful to the support and love extended to me by brothers Jaladi Sudhakara Babu, Sr Manager, Bank of Baroda, Prof. Jaladi Ravi, Dept of Commerce and Management, Andhra University and sister-in-laws Mrs. Parimala and Dr Diana throughout my career.

It would be my pleasure to record a deep sense of appreciation to all those helped in the preparation of this Dissemination. This Thesis has become a bit larger than planned causing an exciting and enjoyable experience for me as an investigator.

I sincerely thank Prof E. N. Dhanamjaya Rao, Dept of Geology and Dr. Koti Reddy, Dept. of Instrumentation Engineering, Andhra University for their support, encouragement and concern during my research work.

I express my thanks to Mr. Venkat, Scientisty, Analytical Laboratory, Andhra University, for his valuable help in XRD and SEM measurements and discussions regarding XRD and SEM studies. I am also thankful to Mr. Raghu Varma, the research student of Pharmacy Department, who was always ready to help in carrying out the FTIR spectra. I would like to thank Mr. Jayadeva and Analytical Central Facility, IISC Bangalore and Ms. N. Niveditha, Research Scholar, IIT Bombay for their help in Magnetic, Dielectrical and Electrical related measurements.
Many people contributed to the launching of this research. The researcher is most grateful for their efforts. The investigator extends her sincere appreciation to those who is being with me, M. Pullaiah, M. Ratna Kanth, G. koteswarao, Ch. Anil Babu, D. Santhi Priya, A. Veeraiah, K. Ephraim Babu, M. Kalyan Raju, K. Jalaiah, M Anil, K. Sailesh, N. Daveedu, Raju, M. Rosaiah, N. Raju, Ch Laxman, Pavan R.K salim, R.P and other research scholars.

I am thankful to the non-teaching staff and supporting staff of Department of Physics, Andhra University for their help during my tenure of Ph.D. Programme.

I am grateful from the core of my heart to my Father (Late) Sri. V. Sundara Rao, My Mother Mrs. V. Manikyamma, My Brother V. S. Prasad Babu, who made me as a complete man and im nothing without them, my sister-in-law Hilda Raymond for her concern and care and their son and my loving Jonas Vagolu.

Finally, I thank the Lord Almighty for all his blessings and the ability that He had bestowed upon me to complete my research studies.
