	Reliability	76
	Health Education	76
	Pilot Study	77
	Data collection procedure	77
	Plan for data analysis	78
	Ethical Consideration	79

CHAPTER	TITLE	Pages
IV	DATA ANALYSIS AND INTERPRETATION	80-130
	▪ Data on background factors of school teachers	82
	▪ Data on knowledge regarding menopause before and after health education among school teachers.	94
	▪ Data on practice regarding menopause before and after health education among school teachers.	99
	▪ Data on problems regarding menopause before and after health education among school teachers.	101
	▪ Data on correlation between knowledge practice and problems regarding menopause among school teachers.	105
	▪ Data on association between mean difference in knowledge, practice and problems regarding menopause and selected background factors among school teachers.	111

LIST OF FIGURE

FIGURE NO	TITLE	Page no.
1	Conceptual Framework of the study, modified and developed from Stufflebeams – CIPP Model.	20
2	Schematic one group pre test – post test Research Design	69
3	Stratified cluster sampling method	72
4	Frequency and Percentage Distribution of school teachers regarding Age.	83
5	Frequency and Percentage Distribution of school teachers regarding Marital Status	85
6	Frequency and Percentage Distribution of School Teachers regarding Menstrual status, Duration of menstrual cycle.	87
7	Frequency and Percentage Distribution of school teachers regarding Time of menopause	89
8	Frequency and Percentage Distribution of school teachers regarding Health Status	91
9	Frequency and Percentage Distribution of School Teachers regarding Source of Information	93
10	Knowledge on menopause before and after health education	95
11(a)	Correlation between knowledge and problems regarding menopause before health education	106
11(b)	Correlation between knowledge and problems regarding menopause after health education	106
12(a)	Correlation between knowledge and practice regarding menopause before health education	108

FIGURE No	TITLE	Page no.
12(b)	Correlation between knowledge and practice regarding menopause after health education	108
13(a)	Correlation between problems and practice regarding menopause before health education	110
13(b)	Correlation between problems and practice regarding menopause after health education	110
14	Association between Knowledge, Practice, Problems regarding menopause before and after health education and Age among school teachers.	113
15	Association between Knowledge, Practice, Problems regarding menopause before and after health education and Marital status among school teachers.	115
16	Association between Knowledge, Practice, Problems regarding menopause before and after health education and menstrual status among school teachers.	117
17	Association between Knowledge, Practice, Problems regarding menopause before and after health education and Duration of Menstrual Cycle among school teachers.	119
18	Association between Knowledge, Practice, Problems regarding menopause before and after health education and Time of Menopause among school teachers.	121
19	Association between Knowledge, Practice, Problems regarding menopause before and after health education and Health Status among school teachers.	123
20	Association between Knowledge, Practice, Problems regarding menopause before and after health education and Source of Information among school teachers.	125

LIST OF TABLES

TABLE NO	TITLE	Page No.
1	Mean, Standard Deviation, Range on Overall knowledge on Menopause before and after Health Education	96
2	Mean difference , Standard Deviation, Standard Error and 't' value regarding knowledge on menopause in various areas before and after Health Education	97
3	Mean, Standard Deviation, Mean difference and 't' value regarding Overall knowledge on Menopause before and after Health Education	98
4	Mean, Standard Deviation, Range on Practice before and after Health Education	99
5	Mean, Standard Deviation, Mean Difference and 't' value regarding Practice before and after Health Education	100
6	Mean, Standard Deviation, Range on Menopausal Problems before and after Health Education	101
7	Frequency and percentage distribution of school teachers regarding menopausal problems.	102
8	Mean, Standard Deviation, Mean Difference and 't' value regarding Menopausal problem before and after Health Education	104
9	Linear regression on mean difference in knowledge on menopause and Background factors of school teachers.	126
10	Linear regression on mean difference in Practice regarding menopause and Background factors of school teachers.	128
11	Linear regression on mean difference in menopausal problems and background factors of school teachers	130
