ACKNOWLEDGEMENT

The research is not possible without the personal and practical support of numerous people. Thus my sincere gratitude goes to many for their love, support and patients over the last few years.

It is my great clemency to undertake this study under the Guidance of Dr. (Mrs.) Veena Shrivastava (Retired Professor and Head of the Department of Home Science K.R.G.PG. Autonomous College, Gwalior), for her infallible guidance, constant support and valuable criticism. I also wish to record my appreciation for her intellectual freedom and timely support given to me. Her dedicated co-operation, indefatigable involvement and guidelines helped me to complete my research work. Her enthusiasm and encouragement stimulated me at every stage. I must place on record her loving kindness towards me, and I am indebted to her in more ways than one.

I wish to express my indebtedness to my Co-Guide Dr. (Mrs.) Charu Katare (Associate Professor of the Department of Home Science K.R.G.PG. Autonomous College, Gwalior), who has been a source of inspiration to me all through my research work. Despite their very busy schedule they have always spared valuable time to guide me at every stage. I feel immensely indebted and extremely privileged to have worked under their supervision and for their untiring enthusiasm, support, abiding interest and constant encouragement for the successful execution of the study. My humble salutation and reverence to such rare combination of powerful intellect, novel mind and a compassionate heart.

I also wish to express sincere thanks to Dr. GBKS Prasad (Professor, SOS in Biochemistry, Jiwaji University, Gwalior) for providing sincere guidance, valuable advice and critical examination during my research and manuscript preparation. I found an
excellent working environment in Diabetes Research Centre, Jiwaji University, Gwalior chaired by Dr. GBKS Prasad to continue evaluation work of the honey and its formulated products on diabetic subject and complete this thesis.

My research center Govt. K.R.G.PG. Autonomous College, Gwalior chaired by respected principal Dr. (Mrs.) Archna Bharadwaj was generous in granting me access to the necessary facilities together with the department of Home Science personated by Dr. (Mrs.) Manju Dubey, Head of the department of Home Science, Govt. K.R.G. PG. Autonomous College, Gwalior and staff members for giving their guidance and lab technician (Mrs.) Laxmi Bajpai for her support.

I am also grateful to my stats advisor Dr. J.P. Verma (Head of the Department of Computer Science and Applied Statistics, LNIPE Gwalior) and statistician Mrs. Lalita Jain to make me understand the importance of statistics for analysis and interpretation of data obtained in my work.

I also acknowledge Justice (Retd.) Shri. MK Shrivastava and Dr. Pradeep Katare for their valuable support and kindness.

This work would only have remained a dream without valuable co-operation and tireless efforts of my seniors Dr. Sonali Saxena, Dr. Dhananjay Yadav, Dr. Anish Zacharia and Ms Neeta Singh.

One needs sincere friend’s and colleague at all major junctures in life to bear strains and fatigue cheerfully. I have been very lucky in this respect. I wish record my sense of gratitude to Shweta Sharma, Supriya Agrawal, Madhu Chaturvedi, Shilpa Chauhan. Also I would like to thanks Mr. Senthil K. Subramani, Mr. Amit Sen, Mr. Deepak Sharma, Mr.
Sunil Mahajan, Dr. Rakesh Soni, Mr. Chandan Sagar, Mr. Shiv Kumar Jayant for their essential cooperation and construction of my thesis.

I also acknowledge Mr. Virendra Verma K.V.K. Morena for arranging the honey supply during my whole study and ‘TUV SUD Laboratories’ Bangalore, Karnataka to analyse honey samples.

Assistance rendered by the staffs of SOS Biochemistry Jiwaji University, Gwalior, especially Mr. Tihvani, Mr. Niranjan Mahore, Mr. Sanjay Bhonsle, Mr. Hotam Singh for their constant help and co-operation during experimental work is gratefully acknowledged.

All men and women who participated in these studies and made the whole work possible. You have been indispensable.

Last but not the least, I give my heartiest sense of gratitude to my loving mother, my brothers, my beloved husband, my In-laws and my near and dear ones whom I fail to mention who were my never ending source of inspiration.

I am thankful to God almighty for his blessing in providing me the capacity to complete this piece of work.

Seema Rana
