ACKNOWLEDGEMENT

The task of acknowledging the immense debt of gratitude, which one owes to so many people, is perhaps the most pleasant aspect of writing a dissertation. Words alone are inadequate to convey my deep sense of gratitude towards my supervisor, Prof. V. Rajamani, Professor of Geology, School of Environmental Sciences for his affectionate guidance, incessant inspiration and constant support at all stages of this work. His intellectual brilliance, analytical skills, innovative ideas, overwhelming experience and enthusiasm had been the path of light throughout the course of the work. I am highly indebted for the encouragement infused in me by him to carry on the present work.

I take this opportunity to acknowledge Prof. Kasturi Datta, Prof. J. Bihari, and Prof. V. K. Jain, successive Deans, School of Environmental Sciences for providing the school facilities to me for this work.

I am grateful to Dr. Sudesh Yadav and Dr. J. K. Tripathi, SES, for their immaculate suggestions as well as for the affection shown towards me. I am thankful to Dr. Meenal Mishra and Dr. K. L. Pruseth for providing help and support to begin a work altogether new to me. Dr. S. Sensarma and Dr. Vivek P. Malviya deserve special thanks for their care, support, patience and time to time guidance during my work and especially at the stage of writing the thesis. I am highly indebted to my lab senior Dr. Sudesh Yadav and junior, Pankaj Mehta, who have not only helped me in analytical work and in organization of the thesis but also in infusing energy and enthusiasm especially during the last phase of this work.

My colleagues Sudha, Prabir, Garima, Rajneesh and Akanksha deserve special thanks for their cooperation, help and good company during the course of my work. I am also thankful to my former lab seniors Dr. Anupam Sharma, Scientist, BSIP, Lucknow and Dr. Pramod Singh, PU, Pondicherry for their time to time guidance.

Friends in my hostel and outside have contributed immensely which cannot be expressed in words. Work and stay in JNU became a pleasure during the companionship of Chaitali, Jeetendra, Eti, Amanthi, Geeta and Nupur, they have their significant contribution in personal life than in academic. Constant support of Piyush is particularly acknowledged in times of worse situations and depression. Seniors and
friends at SES Vijay Shridhar, Sutapa Bose, Sunil Panigrahi, MBK Prasad, Ragini and Rita are acknowledged for their good company. I remain obliged to my friends Jayesh, Chirantana, Upasana, Surabhi, Ashish and Saurabh who have always stood by me and infused enthusiasm whenever I needed most.

I duly acknowledge the assistance extended to me by all the faculty members and staff of SES in my research work. I am thankful to office assistant Maya for her care, support and loving nature during my work and stay in the laboratory. Periswamy (Raju), Nukul and Babu Ram are thanked for their laboratory assistance. The tea and coffee served by Yunus in the lab deserves special acknowledgement.

I owe my thanks to Mukesh bhaiya for his extremely supportive and caring nature and immense inspiration to work hard. My brother and sister have always been there to extend care, love and support which became the pillars during my stay in JNU. My parents need no mention as their presence is always felt in all my endeavors. I am indeed grateful to my family for their enduring patience and constant encouragement.

Lastly, financial assistance provided to me by the CSIR is gratefully acknowledged. I am solely responsible for any error in this thesis.

DEEPIKA PANDEY
