ACKNOWLEDGEMENT

This thesis became fruitful only with the endless and selfless support of many people. There are some people who made this journey easier with words of encouragement and more intellectually satisfying by offering the proper advices at appropriate times. I would like to express my sincere gratitude to all those who gave me the possibility to complete this thesis.

First of all, I would like to thank my supervising guide, Dr. M Chandrasekaran, Professor, Department of Biotechnology, Cochin University of Science and Technology. I am proud to be a student under his guidance. His trust and tireless enthusiasm has provided me with the strength and courage to carry on with my studies especially at times of crisis. His wide knowledge and logical way of thinking have been of great value for me. He gave the appropriate suggestions at appropriate times so as to make this humble effort in to a fruitful success.

I am thankful to Shri. Elyas K K, Lecturer, Department of Biotechnology, Cochin University of Science and Technology for his valuable guidance and support throughout the completion of my work. Without him, this work would not have progressed. His continuous interest and motivation, and the genuine insight into the problems have helped me to gain the deepest thoughts in research. His receptive outlook, unrelenting enthusiasm and positive approach will forever remain as a source of inspiration.

I express my heartfelt gratitude to Dr. Sarita G Bhat, for her valuable suggestions and support during my studies here.

I am thankful to Dr. C S Paulose, Head and Dr. Padma Nambisan, faculty member, Department of Biotechnology for their support and cooperation.

My M. Sc. classmates were of great help throughout my period of stay in this department. I am greatly thankful to all of them, especially to Merina and Pandey at IICB, Calcutta for their support and care.

I extend my deep sense of gratitude to my colleagues and seniors of Microbial Technology Laboratory. They were always with me with constant
support and caring. I greatly acknowledge the extensive co-operation that they have rendered to me.

Words fail me, to express my feelings towards Mr. Soorej M Basheer, Ms. Sreeja Chellappan, Ms. Archana Kishore, Ms. Jissa G Krishna and Mrs. Jasmin C for constantly encouraging and motivating me to excel. Their enduring support, untiring help and inspiration will always be cherished. I greatly acknowledge the co-operation and help received from my colleagues Mr. Madhu K M, Mr. Bernard Rajeev, Mr. Siju, Mr. Binoy, Mrs. Beena, Mrs. Lailaja & Mrs. Manjusha. A special thanks to Ms. Sreeja Chellappan, for her valuable discussions, considered suggestions, inspiration and encouragement during the course of the work.

I am thankful to Shri. Anas Abdul Aziz for his great help and valuable suggestions during my research work.

I express my gratitude to all the research scholars at Neuroscience Laboratory, Department of Biotechnology for the support they have provided.

I also thank all the present staff and members of the Department of Biotechnology, Cochin University of Science and Technology for their help and co-operation. I would also extend my deep sense of gratitude to Smt. Shanthakumari, Smt. Usha, Smt. Ajitha, Smt. Ratna Bai & Mr. Ismail.

The financial assistance from the Kerala Government in the form of Welfare Fellowship is greatly acknowledged.

I should not forget the pains and efforts taken by my parents and family members for the successful completion of my thesis work. I am greatly obliged to them for their love and care.

I extend my sincere thanks to my fiancé, Mr. Preejith P V, for his inspiration, support and encouragement without which it would not have been possible to embark upon this journey in life.

I am grateful to God Almighty for providing me all the blessings for making this effort a success.

Bijina B
