ACKNOWLEDGEMENT

I am indebted to my research supervisor Dr. K. Prakasan, Professor and Head, Department of Production Engineering, PSG College of Technology, for his scholarly advice, valuable suggestions, immense help, encouragement and guidance throughout this project. He contributed extensively to the solving of difficult problems encountered and from whom I have gained valuable insights into scientific methodology and research.

I express my profound sense of gratitude to Dr. R. Rudramoorthy, Principal, PSG College of Technology, for his valuable encouragement and many useful suggestions. I am grateful to Management of PSG College of Technology for the facilities provided during the course of my work. I am also thankful to Department of Science and Technology, Government of India for funding PDM and Integrated Product Development Laboratory under FIST (Ref. No. SR/FST/ETI-137/2004) using the facilities of which this work was carried out.

It gives me immense pleasure to sincerely thank everyone who helped me in various ways to complete this thesis.
