Acknowledgements

One of the joys of a successful completion is to look over the expedition travelled and remembering those intellectuals who have helped and supported me in this long but fulfilling journey.

I express my sincere gratitude to my guide Dr B Shivananda Nayak for his extensive knowledge, encouragement and excellent comprehension of the subject throughout the period of this dissertation. His mentorship, with all its virtue, was paramount in initiating valuable discussions and providing productive feedbacks that inculcated in me a desire to fulfill my goals during the culmination of this thesis. He has always been accessible and readily provided valuable suggestions. I sincerely thank him for his inspiring ways, verve and co-operation. I will remain gratified eternally.

I am equally indebted to erudite Dr Chandrashekhar, Professor of Physiology and Neurosciences, AUA College of Medicine, University of Antigua, for his valuable suggestions.

My earnest thanks to Dr Pragna Rao, Professor and Head, Department of Biochemistry, for permitting me to carry out my research work in between the scheduled working hours. She has always been supportive and inspiring.

My bountiful thanks to the Dean of my esteemed institution Dr Pradeep Kumar, Kasturba Medical College, Manipal University, Manipal and Associate Dean, KMC and Dr Sudhakar Nayak, Associate Dean and Professor of Biochemistry, KMC, Manipal.

With impassioned teamwork and generosity, Manipal University has provided excellent facilities for academics and research. I am immensely obliged to Dr Ramdas Pai, our Chancellor; Dr HS Ballal, Pro-Chancellor; Dr Ramnarayan, Vice Chancellor; Dr K Gopalakrishna Prabhu, Registrar; Dr Shaymala Hande, Deputy Registrar (Academics), Manipal University, Manipal, for all the resources rendered towards the completion of this dissertation.

A note of thanks to Dr Saraswathi L Udupa, for her guidance at the preliminary level of this dissertation.

A special felling of gratefulness to all the faculty, post graduates and non-teaching staffs, Department of Biochemistry with special consideration for Mr Sudhakar U, Mr Dinesh Shetty and Mrs Maxim for their congenial ambience and timely help.
I extend my heartfelt gratitude to Dr Srinivasan, Professor and Head, Department of Chemistry, Manipal College of Pharmaceutical Sciences, for his valuable inputs which provided credible support for the write-up of this work.

Thanks to Mr Anantha Rao, Sr Librarian, Manipal Humanities Library, MU, Manipal for his computer expertise which has helped me in designing a framework for my thesis.

Mr Shashidhar Kotian, Statistician, Department of Community Medicine, KMC Mangalore deserves a special mention for being so meticulous in carrying out the statistical analysis of this study and timely advice regarding the same. His guidance helped me greatly in interpreting the results of the study. My sincere regards to Dr Srikumaran Nair, Department of Statistics, KMC Manipal, for their resourcefulness.

A special note of thanks to Mr Shridhar, auxiliary staff, Animal House, Manipal Life Sciences Centre for the special care and attention provided to the animal subjects of this study. I would like to express my sincere gratitude to Dr K Satyamoorthy, Director, Department of Biotechnology, MLSC, Manipal for permitting me to utilize the animal house to conduct my study.

“Animal research and testing has played a part in almost every medical breakthrough of the last century. It has saved hundreds of millions of lives worldwide...” –Joan Ryan.

My deepest gratitude to all the animal subjects who were sacrificed for my dissertation.

I am deeply indebted to my parents and husband for their generous and compassionate sustenance during all the anxious moments of this venture. Also, an earnest word of love and appreciation to my brother and my son who have been prominent accompaniments from inception to end of my PhD program.

Words just cannot express my deepest admiration for my friend Dr Jothi, Department of Periodontics, Manipal College of Dental Sciences, Manipal. She has gone beyond her time constraints to help me in every possible way to complete my research work. Thank you very much for your sincere support.

Finally, I offer my earnest prayers to God for blessing me with the strength and wisdom, to transform my research goals into this doctoral dissertation.

Vinutha R Bhat
