SR. NO.	TITLE	PAGE NO.
	ABSTRACT	1
1	INTRODUCTION	3
2	REVIEW OF LITERATURE	6
	2.1: Pathological Investigations	6
	2.1.1: Symptoms and signs observed on grains in nature due to infection of various pathogens	6
	2.1.2: Isolation of Pathogens	7
	2.2: Identification of pathogens	9
	2.3: Pathogenicity test	13
	2.4: Physiological investigation	14
	2.4.1: To find out the superior media for growth and sporulation of various pathogens	14
	2.4.2: Effect of grain molds on germination of sorghum seed	16
	2.5: Management of Sorghum Grain Molds	17
	2.5.1: <i>In vitro</i> screening of plant extracts against pathogenic fungi	17
	2.5.2: <i>In vitro</i> screening of antagonists against pathogenic fungi	19
	2.5.3: <i>In vitro</i> screening of fungicides by Poisoned Food Technique (PFT) against pathogenic fungi	23
3.	MATERIALS AND METHODS	27
	3.1: Pathological Investigations	27
	3.1.1: Collection of healthy and diseased earheads of sorghum	27
	3.1.2: Symptoms and signs observed on grains in nature due to infection of various pathogens	27
	3.1.3: Isolation of pathogens	28
	3.1.3.1: Isolation of ectophytic mycoflora	28
	3.1.3.2: Isolation of endophytic mycoflora	28
	3.2: Identification of pathogens	29

3.3: Pathogenicity test	29
3.3.1: Pathogenicity test in <i>in vitro</i>	29
3.3.2: Pathogenicity test in <i>in vivo</i>	30
3.4: Physiological Investigation	31
3.4.1: To find out the superior media for growth and sporulation of various pathogens	31
3.4.2: Effect of grain molds on germination of sorghum seed	33
3.5: Management of Sorghum Grain Molds	35
3.5.1: <i>In vitro</i> screening of plant extracts against pathogenic fungi	35
3.5.2: <i>In vitro</i> screening of antagonists against pathogenic fungi	36
3.5.3: <i>In vitro</i> screening of fungicides by Poisoned Food Technique (PFT) against pathogenic fungi	38
4. RESULTS AND DISCUSSION	41
4.1: Pathological investigations	41
4.1.1: Collection of healthy and diseased earheads of sorghum	41
4.1.2: Symptoms and signs observed on grains in nature due to infection of various pathogens	41
4.1.3: Isolation of pathogens	43
4.2: Identification of pathogens	46
4.3: Pathogenicity test <i>In vitro</i> and in vivo	50
4.3.1: Pathogenicity test of <i>Fusarium moniliforme</i>	53
4.3.2: Pathogenicity test of <i>Macrophomina phaseolina</i>	54
4.3.3: Pathogenicity test of <i>Colletotrichum graminicola</i>	54
4.3.4: Pathogenicity test of <i>Alternaria alternata</i>	54
4.3.5: Pathogenicity test of <i>Fusarium oxysporum</i>	55
4.4: Physiological Investigations	56
4.4.1: To find out the superior media for growth and sporulation of various pathogens	56
4.4.1.1: To find out superior media for <i>Fusarium moniliforme</i>	56
4.4.1.2: To find out superior media for <i>Alternaria alternata</i>	58

4.4.1.3: To find out superior media for <i>Fusarium oxysporum</i>	60
4.4.1.4: To find out superior media for <i>Macrophomina phaseolina</i>	62
4.4.1.5: To find out superior media for <i>Colletotrichum graminicola</i>	64
4.4.2: Effect of grain molds on germination of sorghum seed	65
4.5: Management of Sorghum Grain Molds	69
4.5.1: <i>In vitro</i> screening of plant extracts against pathogenic fungi	69
4.5.1.1: <i>In vitro</i> screening of plant extracts against <i>Alternaria alternata</i>	69
4.5.1.2: <i>In vitro</i> screening of plant extracts against <i>Fusarium oxysporum</i>	71
4.5.1.3: <i>In vitro</i> screening of plant extracts against <i>Colletotrichum graminicola</i>	73
4.5.1.4: <i>In vitro</i> screening of plant extracts against <i>Fusarium moniliforme</i>	75
4.5.1.5: <i>In vitro</i> screening of plant extracts against <i>Macrophomina phaseolina</i>	77
4.5.2 <i>In vitro</i> screening of antagonists against Pathogenic fungi	
4.5.2.1: <i>In vitro</i> screening of antagonists against <i>Macrophomina phaseolina</i>	80
4.5.2.2: <i>In vitro</i> screening of antagonists against <i>Fusarium moniliforme</i>	84
4.5.2.3: <i>In vitro</i> screening of antagonists against <i>Colletotrichum graminicola</i>	89
4.5.2.4: <i>In vitro</i> screening of antagonists against <i>Alternaria alternata</i>	93
4.5.2.5: <i>In vitro</i> screening of antagonists against <i>Fusarium oxysporum</i>	98
4.5.3: <i>In vitro</i> screening of fungicides by Poisoned Food	102

Technique (PFT) against pathogenic fungi		
4.5.3.1: <i>In vitro</i> screening of fungicides by Poisoned Food	102	
Technique (PFT) against <i>Alternaria alternata</i>		
4.5.3.2: <i>In vitro</i> screening of fungicides by Poisoned Food	104	
Technique (PFT) against <i>Fusarium oxysporum</i>		
4.5.3.3: <i>In vitro</i> screening of fungicides by Poisoned Food	106	
Technique (PFT) against <i>Colletotrichum graminicola</i>		
4.5.3.4: <i>In vitro</i> screening of fungicides by Poisoned Food	108	
Technique (PFT) against <i>Fusarium moniliforme</i>		
4.5.3.5: <i>In vitro</i> screening of fungicides by Poisoned Food	110	
Technique (PFT) against <i>Macrophomina phaseolina</i>
