ACKNOWLEDGEMENT

I had seen a dream few years back. Now, this dream is fulfilling in the form of this research. But how did the ethereal become solid? Innumerable are the springs of inspiration which gave colours to my thoughts. Gratitude is a small word in return. But, this is the only mean, I have to express my feelings.

No word would be adequate to articulate my thankfulness to my teacher and supervisor Dr. (Smt.) S.D. Srivastava, Senior Lecturer in Chemistry, Dr. H.S. Gour University, Sagar for her valuable guidance and constructive suggestions. Her precious advises enabled me to soil smoothly amongst the threatening storms in the sea of life.

Now, I would like to express my gratefulness towards Prof. S.P. Banerjee, Head of the Department, Department of Chemistry, Dr. H.S.Gour University, Sagar, not for the sake of traditional formality but of course for his gentle, study and sincere approach. His readiness to solve official and personal difficulties any time, anywhere and upto any extent.

I am deeply indebted to Dr. S.K. Srivastava, Reader in Chemistry, Dr. H.S. Gour University, Sagar without whose interest, encouragement, help and blessings, the work would not have seen the light of day.

I extend my thanks to the Head, RSIC, IIT Mumbai and the Head, RSIC, CDRI Lucknow for providing spectral and analytical data of the synthesized compounds described in the thesis. I am also grateful to the Heads Department of Botany and Pharmacy, Dr. H.S. Gour University, Sagar for providing all necessary facilities for pharmacological activity evaluation of the synthesized compounds.

With respect and all reverence, I pay regards to my paternal and maternal grandmothers and grandfathers. Their noble life instituted high ideas in me right from my childhood.

My parents, who not only brought me into this world but also took pain to shape my intellect. They provided a conductive atmosphere that enabled me to dream. I can never forget the trouble taken by my father to provide the best facilities and my mother to repeal my obstinate nature without any feud. I will be indebted lifelong for their loving and encouraging attitude towards my academic work. They have made me what I am today. I am grateful to God for giving me such loving and caring parents.
I offer my profound respect and express my sincere gratitude to my venerable uncles Shri P.N. Rawat and Shri L.N. Rawat who have affectionately offered all help and encouragement during the course of the study.

Words fall short to gratefully acknowledge my gratitude to my elder brothers, Mr. Ramesh Rawat and Dr. Dinesh Rawat who overlooked my all irresponsibility towards my domestic duties and provided constant cooperation blessings and patience and sacrificed at every stage of the study.

I owe my deepest gratitude to my loving sisters, Mrs. Meera Tiwari, Mrs. Saroj Dixit, Mrs. Archana Rawat and Ku. Kalpana Rawat, nieces, Divya and Deeksha and nephew, Deepesh who understanding the nature of seriousness of my study uncomplainingly accepted my irritable nature and enabled me to devote my time to complete this thesis.

I take this opportunity to record my gratitude to my lab-mates Mrs. Ritu Yadav, Mrs. Seema Mishra and Ms. Rishu Agrawal for their gratuitous help, sacrifice and words of advice.

I am deeply indebted to my collaborator friends Prashant and Ram Swaroop for their brotherly love and affection, constructive ideas and endless help throughout the research tenure. I am sure that this will continue life long. My collegeate friends Santosh, Jagdeesh, Aanjanya Manoj, Bhawani, Ajay, Deeprasha, Ravikanta, Neelima, Trilok, Vinod, Anwar and many others are also well acknowledged for their blessings and their faith in me which always inspires me to become their “dream Teeka Ram”.

The juniors of my research lab. Ms. Mahima Khare, Ms. Leena Jais, Ms. Niharika Guru, Mr. Veerendra Chouksey and Mr. Sunil Gautam are also acknowledged for their all kinds of cooperation. I am equally indebted to Mr. S.K. Pandey, (Store keeper) and Mr. Walter (Lab attendant) who have contributed towards the successful completion of this work.

M/s Network Computers, Mr. R.R. Patel and his wife are deeply acknowledged for a nice printing of the thesis.

Lastly, the demerits of this work are only mine and merits are blessings of elders.

Tika Ram Rawat
