ACKNOWLEDGEMENT

It gives me immense pleasure to present this thesis which is a result of my relentless efforts and the guidance, advice from my guide, friends and family members.
I take this opportunity to express my gratitude towards the PhD section of Tilak Maharashtra Vidyapeeth, Pune for offering me an opportunity to do my doctoral research work.
I am falling short of words in expressing my deep gratitude and sincere thanks to my honorable guide Dr. K.M.Parchure for his continuous guidance and help during the research. He acted as a lighthouse during the entire research work and put me on right direction to achieve the objectives of the research. I shall never forget the concern he showed in timely completion of my work and thesis. This would not have been possible without his continuous and timely reminders at every stage of research work. He is more than a guide for me, a teacher and a philosopher.
I am grateful to all my friends and current and ex colleagues who supported me by sharing data for my case studies.
It would just not have been possible to progress and complete my thesis without the intellectual, emotional and continuous moral support from my wife Vaishali and emotional and moral support from my daughters Bhagyashree and Harshali.
