Acknowledgement

During the whole journey of my research work many helping hands come to me in many ways. This work would not have led to a success without their help. It is a great pleasure and privilege for me to take this opportunity to acknowledge all of them.

First of all I have a great pleasure in expressing my deep sense of gratitude to young and dynamic personality, my Ph.D. guide Dr. K. D. Patel for his valuable instructions, support and immense guidance throughout my research work.

I express my sincere thanks to Prof. A. R. Jani, Head, Department of Physics, Sardar Patel University and Prof. K. N. Joshipura, the former head, for providing the necessary infrastructural facilities in the department and motivation during the entire work.

I am highly pleased to express my most sincere gratitude towards honorable Prof. R. Srivastava for his keen interest and encouraging suggestions at various stages of the present research work.

I wish to record my special thanks to Prof. V. M. Pathak and Dr. G. K. Solanki for their co-operation and valuable moral support. I am also happy to extend warm appreciation towards all other faculty members and non-teaching staff members of the department for providing inspiration as well as co-operation during the tenure of my research work.

I express my heartiest thanks to to all my research colleagues Mayur Patel, Haresh Patel, Keyur Hingarajiya, Jignesh Rathod, Mihir Jani, Rahul Patel, Vimal Patel and P. R. Patel who always helped me at every stage of my research work. I also wish to acknowledge the help received from Dr. C. K. Sumesh, Vishal Pathak, Prashant Mistry, Chirag Vyas, Ms.Ebtesam and Ms. Arwa.
I would like to thank the SICART Vallabhbh Vidyanagar, FCIPT - Gandhi nagar, ERDA- Vadodara, CHARUSET - Changanga and Faculty of Technology, M.S. University, Vadodara, PDPU-Gandhinagar for providing me characterizations facilities and also thankful to the USIC, Vallabhbh Vidyanagar for their co-operation during the present work.

I wish to record my sincere gratitude towards authorities of management and the principal of my college, Smt. S. M. Panchal Science College, Talod as well as S. P. University for their kind generosity in giving me the permission to join this Ph. D. study. I am also thankful to my college staff, specially the staff of Physics department for bearing my absence and sharing my responsibilities.

I am heartily thankful to the UGC-Western Regional Office for granting me teachers' fellowship to carry out this research work.

I am forever indebted to my parents for their continuous support, understanding, endless patience and encouragement throughout the work. Without their blessings and understanding this work could not have been completed. I also appreciate the gesture of my family members specially, my wife, son and daughter for sharing my social responsibilities and indirect help by their warm affection.

Finally and most importantly, I would like to thank almighty - an endless source of inspiration for me always, for his blessings and kindness.

Kirankumar K. Patel
