ACKNOWLEDGEMENTS

I express my deep sense of gratitude to Dr. G.P. Mishra, F.T.E., Reader in Botany, University of Saugar, for guidance and sustained interest during these studies, without which this work could not have been completed.

I feel obliged to Prof. S.B. Saksena, F.N.A., Head of the Botany Department and Dean, Faculty of Life Sciences, University of Saugar, for providing laboratory facilities and constant encouragement.

My sincere thanks are also due to Dr. R.N. Dakwale, Ph.D., Assistant Professor of Botany, University of Saugar for valuable discussions and suggestions. I am also grateful to Dr. Ram Prasad, D.F.O. and to my brother Shri K.M. Johri, D.F.O., for providing field facilities.

I am also thankful to Dr. K.P. Singh, Ph.D., Lecturer in Botany, M.M.H. College, Ghaziabad and Mr. R.N. Joseph, Research Fellow, Department of Botany, University of Saugar for helping me in various ways.

Lastly I am indebted to my colleagues and friends for the help which they have rendered to me throughout the study period.

Rajiv Mohan Johri
