ACKNOWLEDGEMENT

I would like to express my sincere gratitude to Dr. Prabhat Kumar Sharma, Department of Botany, Goa University, Goa, for his critical guidance and scientific support throughout my Ph.D. work. His practical guidance, encouragement and kindness throughout the course helped me in successfully completing of the thesis. I am indebted to him.

I am grateful to Prof. Dr. D. J. Bhat, Head, Department of Botany, Prof. Dr. S. Mavinkurve, Head, Department of Microbiology and Prof. Dr. U M. X. Sangoadkar, Dean, Faculty of Life Sciences and Environment, Goa University, for allowing me to use their Departmental facilities. I am also grateful to Mahyco Hybrid Seed Company Ltd., Jalna, Maharastra, for providing continuos supply of sorghum seeds for carrying out the research work.

I would like to thank Dr. Saroj Bhosle, Reader, Department of Microbiology, for helping me with the HPLC and Dr. Sanjeev Ghadi, Senior Lecturer, Department of Marine Science and Biotechnology for his assistance in scanning the protein gel on densitometer. I would also like to thank all the teaching and non-teaching staff of Department of Botany, for their support throughout the work.

Thanks are also due to the Liberian for providing the library facilities and assisting in procurement of necessary books and scientific reprints etc.

I sincerely acknowledge my friend Ms. Shanti Desai for being there whenever I needed her and all friends I have made in the laboratory particularly Mrs. Preetha Anand and Ms. Shandra Sequira.

Finally I am indebted to my parents for their support, understanding and encouragement throughout my research work.
